"It is necessary for any community to develop its irlbutary agricultural territory, for this gives a permanent backing. Now that dry farming is becoming better milerstood, you have excellent opportunities along this di-

rection. "Colorado Springs, with is wonderful environment and delightful climate, has an opportunity to become a favoreration of Labor in convention as its convention city. Detroit, with one conventions, and I attribute much of judges to be voted on at the next gen- alike, and the average delegate would crap election, and be it further much prefer to come to some such place as Colorado Springs.

City Planning Important "City planning is a vital subject and

should engage the serious attention of

active commercial organizations." Thomas II, Stone, & directos of the attainted with the aims and objects of several vecks in colorado Springs was Who has come with his family to spend out and make it grow. also a guest at vesterday's lum bean, public at fifty cents a bottle, and is reinforced at Guadalaiarza. At Man-Favor Regulation Liquor Traffic. Mr. Stone & leading attorney, was one tenders of Denver say that they are in the commission form of government Co., Colors to Co.

for Houston, and he is emphatic in his declaration of the many advantages which this form has conferred upon his city.

Mr. and Mrs. Boldt leave today on their return to Houston, after having spent a three weeks vacation in this vicinity. Mr. Boldt is anthusiastic over the attractions of the Pikes Teak region and declares that the charms of this climate and this locality are only beginning to be realized by Texaus. He is an advarage of closer coopera tion between Colorado and Texas in a commercial way, believing that Colorado can solve meny of its transportation problems, by cooperation with Texas, which enjoys the advantage of its location on the Gulf-of Mexico.

NEW RESOLUTION

(Continued From Page One.) Flood after the conference. Senator William A. Smith of the senate com-

mittee was more optimistic. "There is a strong likelihood that the house and sensio may agree on a joint resolution admitting Arizona and New Mexico forthwith," said Mr. Smith.

"The issue raised by the president's veto, so far as Arizona is concerned, probably will be met by a constitutional amondment that the recall shall not apply to indicial officials.

The New Mexico constitution has been criticised by some members of the house and senate because it is difficult of amendment. The house and schate committees are considering the question of resubmitting to the voters of New Mexico a constitutional amend-SUFFRAGISTS ADDRESS AND ALLEGED COAL GRAFTERS ment to change this."

Many Messages Received.

While hundreds of messages were received at the White house today praising President Taft for his veto message aimed at the recall of judges in the Arizona constitution, there was one that was most unexpected. It was a telegram from helf a dozen citizens of New Mexico, which is kept out of

the Union with Arizona by veto. The majority of the Republican party, as well as the majority of the union now in convention here, ended the John J. Sesnon company of tents were in such a good state of people of this territory," read the telegram, "wish to extend to you our hearty congratulations on your meshighest salaried woman employe of the sage vetoing the Flood resolution. We United States covernment. Miss Kelly, prefer a delay of another year if necwho has just been appointed assistant say rather than inforse the recall of arbitration.

In reply, the president sent the folcities, Vancouver, B. C.; Ottawa, Ont.; lowing telegram Houston and Cleveland, were placed

S.S.S. HENDYLS ATT HUMORS

The cause of all skin diseases can be traced to some humor in the blood, and therefore the cure of any skin trouble can come only through n thorough cleansing of this vital fluid. Salves, washes, lotions, etc. relieve some of the itching and discomfost, help to reduce inflammation, or aid in keeping the cuticle clean, but such treatment does not reach the blood, and of course can have no real curative effect. S.S.S. cures Skin Diseases of every kind because it purifies the blood. It is an internal remedy for an internal trouble, and works on the only reasonable and certain method of cure. S.S.S. removes all acids and Rumors from the circulation and leaves the blood stream rich, health; and nourishing in order that it may supply the cuticle with the neces sary properties to restore it to its smooth, normal condition. Book or Skin Diseases and medical advice free. S. S. S. is sold at drug stores INF SWIFT SPETEIC CO. ATLANTA, GA.

CALIFORNIA FRONTIER -PATROL REESTABLISHED

WASHINGTON, Aug ° 16 -- A patrol States troops, abolished only a short today by the war department because of a threatening situation just south of the border in Lower California;

-A company of coast artillery at San Diego, Cal., was instructed to take the resentative Underwood, chairman of field for partol duty from San Diego o Yuma, Ariz. Mexican rurales are now proceeding

to Tia Juana, traveling over American territory with the consent of the United States government, for the purpose of suppressing the trouble in Lower California.

It is feared by the state department on the scene to clear out the dis-turbers some of the latter may seek refuge in the United States and commit depredations on American soil. For that reason Secretary Knox appealed to the war department to send to the border a patrol adequate to protect American interests.

LOST GIRI FOUND

SAN RERNARDINO, Cal, Aug. 16.-Breaking into the offices of A. W. Mc-David, a dentist, at midnight last night, Chief of Police Mesperit found, huddled in a corner, with her baby, Miss Jessie McDonald, the high school girl by her father here, have searched for 15 months in all parts of the state.

Miss McDonald, a young woman of in ragged garments and wasted almost to a akeleton. She told the officers that she had been confined for a year and a half in a small apartment adjoining the dentist's office. McDavid, who is a merried man, was arrested.

Sobbing out her story to District Attorney Goodsell, Miss McDonald declared that she had been held in subicction through hypnotic influence and had undergone awful suffering. Almost in the same breath-with which she accused McDavid with having been a cruel jailer, she declared that she loved him.

District Attorney Goodsell declared the girl had been kept in almost solitary confinement in the apartment adjoining the dentist's office.

The young woman's child is four nonths old. For days at a time the infant has been her only companion while the dentist was away, or with his wife and family.

iron and steel schedule as an amendment; the farmers free test bili will probably be disposed of by the senate tomorrow with all differences between the two houses adjusted and the wool bill awaits the president's veto. This is the taritf situation tonight.

on in caucus of the Demociatic senaof the California trontier by United tors today, carries out part of the revision extension program of the time ago, was ordered reestablished progressive Republican senators, whose alliance with the Domocrats has swept tariff legislation through congress at this session.

atorial caucus was reached after Repthe ways and means committee, and that the extension of tariff revision would not be objectionable to them.

Mr. Underwood said that opening of the tariff-program to iron and steelwould extend the present session for a week or 10 days from now at least, and that it would result in his comthat when the Mexican soldiers arrive pleting work already well advanced on the iron and steel and other sched-

cus continued from 10 o'clock this morning until after 7 o'clock tonight.

TOGO PLEASED WITH

NEW YORK, Aug. 16-Admiral Togo bade New York good-by for Boston late today. After nearly a week spent in sightseeing, the day found for whom private detectives, employed him rather fatigued. He kept to his room during the morning but spent the greater portion of the afternoon at Governors Island as the guest of 20 years, was a pitiful figure, clothed Maj. Gen. Frederick D. Grant and concluded his stay with a four-mile automobile run up Broadway from the Bat tery to his hotel

Broadway and rush hour crowds gave proper setting for the run. Preceded by four motorcycle policemen shricking a brazen alarm, the admiral and his party in two automobiles threaded through traffic without incident. To show the perfect police control of the situation the chauffeurs swung their cars from curb to curb at intervals as they sped over the thoronghfare.

The little warrior was delighted When the cars stopped at his hotel he invited the four motorcycle bluecoats of dockers and allied unionists, oc- their services the railway companies to his room and personally thanked each one.

(Continued From Page One.)

of the three railway men's unions now the route to London from Liverpool. that the men's ultimatum may be exopportunity for Turther pegotiations sire, but up to midnight there was no sign of any change in the plans for a

It is understood that Mr Buxton's conference with the managers of the railway companies was largely to discuss how far the government is prepared to go in affording military protection in the railways.

Speeches in Parliament.

Winston Spencer Churchill, the home secretary, declared that nonunionists were entitled by law to work without molestation and would be protected in ticipated the exercise of that right. The chanrelor of the exchequer, David Lloyd-George, also declared that the government was determined to protect the railways and the food supply at all cost and would not depart from the smallest degree from its determination to protect life and property.

what the government's policy of protection to the railways would be I seemingly hedged from the statements of himself and Mr. Churchill during the

The government is bound to protect life and property, but its responsibility does not end there. It must do all in its power to see that fair play is given by the community at large. Nothing is further from the mind of the government than even to convey the impression that it would intervene in the interests of any party. It is essential that the government preserve an attitude of complete impartiality. It certainly does not mean to give any guarantee or to lend any countenance to the theory that it has undertaken in advance to be any party to the controversy.

Railway Mon Favor Strike. Meetings of railway men were held in provincial centers tonight and at all of them resolutions were adopted favoring a strike.

Today London seemed gradually settling down to normal conditions, but elsewhere there was no improvement in the strike situation.

A. H. Stanley, the American manager of the London Electric railway. including most of the underground services, conferred all day with his employes. At the conclusion of the conference he announced that the companies had made concessions which the men had accepted provisionally. It is stated, however, that although the men are satisfied, if there should be a general strike of railway employes they will join it. :

The government is coming in for blame for the strikes both from the Conservatives, who do not hesitate to ascribe the upheaval to the socialistic policy of the ministers, and from the Laborites, who denounce the cabinet employing the army in labor dis-

LIVERPOOL, Aug. 16 .- When the executive members of the railway men's union boarded a train for London tonight to join tomorrow in the conference which is endeavoring to settle the trouble, a hopeful feeling prevailed among them that a general strike would be averted

It is reported that certain proposals submitted by the board of trade, presumably for a meeting between these delegates and representatives of the railways, have been accepted. At the conference the situation will be canvassed and a decision reached

fective at 8 o clock The belief here is that the danger of a national cirike is over for the

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration? Is it not a significant fact too that

Dr. Pierce's Favorite Prescription

is the only medicine sold through druggists, for woman's peculiar weaknesses and ills, the makers of which are not afraid to print its every ingredient on its outside wrapper? Is this not worthy of your consideration If you are a poor sick invalid woman?

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

A booklet of ingredients, with numerous authorative professional endorsements by the leading medical suthorities of this country, will be mailed free to any one sending name and address with request for same. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.

Believes Death Due to Suicide; Body Removed

Wells, Colo., Is convinced that misbrother-in-law, Del Cutler of Waterloo, Ia, was not murdered. The body of the young man, buried three months ago, was taken up yesterday and sent to the family home in Iowa.

Believing that the young man had met with foul play when he started to walk up Pikes Peak one afternoon early last May, Bacon came to Colorado Springs several days ago to investigate the circumstances surrounding the young man's death. Cutler's story when he wandered into the Half Way house, part way up the Peak, was that he had been attacked and robbed. He fainted and was taken to a hospital here, where he died the next day, May 8. Signs of acid poisoning were, found by physicians, and a coroner's jury returned a verdict of suicide. It was supposed that despondency caused the young man to

INTERNATIONAL ORGANIZER IN "TIPPING" OF BARBERS

It is the abuse of the "tipping" system to which J C Shannesses, international organizer for the barbers union, objects. He made a talk to the union barbers of Colorado Springs last evening at the T T Hyatt barber shop, 106% East Pikes Peak avenue. "No barber," Mr Shannessey said, should go out of the way to procure a tip from a patron He should give every courtesy possible. Then if the patron feels that he should give a tip, well and good

"I have in mind a wealthy friend in New York. He was not a 'tipping' man. The first time he stepped into a ing and special effects on gala occa- man. The first time he stepped into a sions, will be investigated and report- certain shop, the barber in the first ed to the chamber of commerce by kindle gave him every kindness. He committee consisting of W. H. Sput- went back the second time, and the went to every barber in the nine chairs in the shop, and the conditions The matter was referred to this com- were the same He could not get a mittee at a meeting of the directors shave or hair cut like he got the first

"He was telling me about it one "Some men feel-and they are right-

that they are paying well for the work they are having performed when they step into a_barber shop. Others feel that the barbers are not getting their share of this world's goods, and are Thieves forced their way into the in the habit of tipping. "Barbers, throughout the world,

cupied by the Hendrick Paint com- should give every patron the best atpany, carly vesterday morning, and tention he can, and leave it to the took \$61 10 from the safe. The robbery man who is having the work done, as One of the most common atlments

THE UNIONS AND THE BOY SCOUTS

IF FOR no other reason than the es-

teem in which is not unionism is neig, what a pity it is that the men who write the resolutions condemning one thing or another, which are so frequently adopted by their conventions, do not cultivate the wholesome virtue of restraint. Almost invariably such resolutions are a veritable riot of extravagant expressions. "Lawless capitalism;" "The latest conspiracy of capitalism to assassinate the last vestige of liberty that is left to labor;" "This attempt of the capitalist class to further subjugate the working classes" how familiar are these phrases! - With slight variation they have been used in a thousand proclamations, manifestoes, ultimatums and resolutions issued by conventions all over the country which were dominated by passion instead of reason. Of course, thinking people are not influenced by them except insofar as they arouse disgust. But it is doubtful whether they are really intended to influence thinking people at all. Their appeal is obviously to the unthinking crowd that can be stampeded by frenzied abusive language regardless of its lack of reason.

The excerpts here quoted are taken from resolutions adopted yesterday by the State Federation of Labor - assembled in convention in this city. And of all individuals or organizations on the face of the earth, who does the reader imagine these resolutions to be directed against? Possibly it was Detective Burns and his associates, who succeeded in capturing the menaccused of the Los Angeles dynamite outrage. The convention had previously telegraphed its profound sympathy to these victims, so it might reasonably be expected also to pass resolutions in denunciation of their captors.

But no these particular resolutions were aimed against another set of dastardly enemies to human rights. Was it then the Los Angeles Times, or the State militia, or the United States Government, or "lawless capitalism," or any of the other commonly accepted bugaboos that the couvention sought to denounce? Wrong again, It was no less formidable and dangerous a body than the Boy Scouts of America!

BEWARE OF THE INFANT MAN-KILLERS.

Some disinterested friend of the workingman has discovered that "the laws which govern the Boy Scouts

demand obedience to employers, thus demonstrating that the Boy Scouts is but another ally to capital" therefore, t'ell with 'em.

Momentous discovery! Here is an organization of twelve- and fourteen-vearolds, formed to encourage a love of outdoor life, of the practice of those exercises and enjoyments which develop a soundmind in a sound body. True, they wear a uniform because any normal boy, whether · he be the son of a lawless capitalist or of an honest workingman, dearly loves to parade himself in a uniform.

We have been following the Boy Scout movement with a good deal of interest for a year or two without discovering until now that this uniform was a menace to free institutions. But now we can see it clearly. Soldiers and policemen wear uniforms. The Boy Scouts wear uniforms. Ergo, the Boy Scouts may sometime be used, as soldiers and policemen are, to put a stop to strike violence. Hence, "we call upon every union of labor in Colorado and throughout this country to exert all its power and influence in restraining the youth of this country from becoming protessional man-killers in the interests of combinations that know no justice-that conflicts with dividends."

Parents of children who belong to the Boy Scouts are hereby warned that they are harboring embryonic "man-killers" in their homes. This on the authority of the Eederation's resolutions, which declare that Capitalism, under the dia k of disciplining ouths of the nation for their battles of life, is planting the seeds of murder in their hearts in order that they may not hesitate to shed human blood in the interests of exploitation."

DISOBEDIENCE A CARDINAL VIRTUE.

President

But all of this is merely by way of introduction to the Federation's real reason for demanding The

extermination of this body of twelve-yearold "man-killers." It is that "the laws which govern the Boy Scouts demand obedience to employers." Get that? Read it over again and permit it to percolate. The Boy Scouts are required by their rules to obey orders. They are taught that Tobedience to an employer is a wholly commendable-thing and it is on this teaching that the Federation of Labor bases its sweeping condemnation.

Long live the demagogue! Without him this country would indeed be a dull and uninteresting-place. Of course, there was not a man who voted for that resolution who would not, if he were himself an employer, expect and demand obedience from his employes. All of them know or would know, if they had the gumption to think it over for as much as two minutes that any other condition would mean immediate cháos in the conduct of any business, however big or little it might be. Yet these men, presumably the pick-of their organizations, solemnly vote the adoption of a resolution denouncing a lot of innocent children as future incoresional man-killers", because, forsooth, these children are taught to obey orders!

This incident, 4f it proves anything, profes what a long road the Colorado State Federation of Labor must travel before it can appeal successfully to the sober common sense and intelligence of the public.

THE COTTON SCHEDULE.

A study of "protection" as it is found in the cotton goods tariff brings forth some interesting facts. The claim has long been made by the cotton-goods manufacturers that in the sale of their der to be able to pay their workmen the Amerilabor-cost of the foreign goods by an import duty, or tariff, equal to the difference between the lebor-cost in this country and the laborthe old claim, and it is a very plausible one. Now please bear in mind that the sole ground for this

tariff tax is the difference in the cost of the labor, I have heretofore shown that in 1907 the average tariff tax on cotton-geods was 53.38 per cent of the import value of the gonds, and that it is now at least 50 per cent. Of the total cost of cotton goods, the labor-cost is about 21 per cent. That is, if a piece of cotton goods costs the manufacturer \$1, then he has paid 21 cents to the workmen who made the goods. You will notice that this 21 cents is not the mifference between the American laborcost and the European labor-cost, but it is the total American labor-cost of the goods. So when we pay the cotton manufacturer 50 per cent tariff tax ne not only pay his total costs of labor but we pay him 29 per cent additional for catra profits false is the claim of the monufacturer who asks for the present tariff tax in order that he may pay the wages that his workmen demand and descrye. I have never heard of a manufacturer who had the importinence to ask for a tariff tax for his own benefit.

When I think of the imposture and cheat and swindle I am no larger surprised that the New England cotton manufacturers have become like the Oracles of antient Rome-up-two-of-them canlook each other in the face without smiling

I am quite willing to pay an additional cost on goods if that is necessary to give our workmen better wages and enable them to be better citizens, but I am not sure that this fariff tax is the sole cause of the better wages paid to the American workmen. It is quite possible that the labor unions have more influence over wages than the tauff. I do not recall a single highly protected industry which pays a high rate of mages where there are no labor unions. The wages of textile workers are materially lugher in free trade Great Britain than they are in high tarlif Germany and France. That is shown by a recent report of a committee of the British board of trade, a department of the British government and is certainly strong proof that a high tariff does not necessarily bring high wages to the workmen. But the objection that I make to the present high tariff is that the chief part of the

tax goes to the manufacturers themselves. Almost all of the cotton used by the foreign manufacturers is giown in the United States. It is ! first shipped across the sea and then made into used to was reassurances-fond, foolish, reiterated. goods and the goods shipped back across the sea The expense of the two ocean troughts is added to the cost of the goods. I am writing of the foreignmade cotton goods that are sold in America and which cause the tariff tax to be imposed as our manufacturers do not have to pay any ocean freight they have that advantage over their foreign competitors, but they are not satisfied with that advantage and demand the extertionate tax in addition. For many years the high tariff men claimed that the foreign manufacturer and the foreign isborer paid the tariff tax, but they have abandoned that claim and admit that the tax is paid by the consumer in the increased cost of the goods which he buys. There is no room to doubt that the high

tariff rates add much to the cost of living. WILLIAM C. ROBINSON, Colorado Springs, Aug. 16.

CLASS HATRED.

To the Editor of The Gazette. A contributor, signing himself I., J. T., under a communication in The Gazette this morning, is manifestly and knowingly unfair in confounding the words of a correspondent in last Sunday a paper with the doctrine of trades-unionism. The sentiment quoted is simply the declaration of a radical socialist. He evidently belongs to the same class of anarchistic teachers that held the horrangue at Temple theater the other night. Unionists have no as apaths with anarche - the kind of tenening that produces frenzy in unbalanced minds". They are simply contending for 'equal and exact pratice to all men,"- rich and poor ' They simply oppose a partial construction of laws by bused sudged and of innections issued against workingmen at the sweet will of such trants as Whitford without a fair trial by an impartial fury of their countrymer as provided in the constitution and bill of rights. Trades untomote have no class hatred but i have universal hatred obvines injustice and illegably ligh over the enthusiasm of the house for stalking the

It contains an unanawerable definition of L. J. T.'s apparent idea of "liberty," and the kind that ultimately leads to slavery: Luborers get together in voluntary as-

sociation. They bring their grievances be-

fore the management. They are refused, and to enforce their potition they use their right to quit work. They publish the facts of the disagreement. They induce or endeavor to induce other workers to make common cause hith thongs They are successful to such an extent that production is partially stopped The company endeavors to get other men, and the men on strike appeal to the public to refrain from purchasing commodities manufactured by the firm, Sales of stock decrease. The company then goes to some Judge and appeals to him to use the equity process to protect what he calls its propcrty. It sets forth that it has the land, the appliances, raw material, contracts to deliver goods, but owing to conspiracy on the part of labor it has been unable to get workmen and its property—that is, its business is being destroyed. The judge takes the statement and issues an order forbidding the workmen to interfere with the business of the firm. Has any judge the right to use the equity power in this way? . Workmen have used their constitutional rights as citikens, freedom of locomotion of assembly of speech and the press. They have not destroyed any tangible property. They have neither interfered nor threatened to interfere with any property. But the attorney for the plaintiff sets up the idea that the earning power of property is property—that is, business is property. The earning power of the plant depends upon labor, and sales depend upon patronage. The tirni can have no property right in labor, because that is inherent in the laborer and would mean property Fight in the laborer. The firm has no vested right in the patronage of the public. The patronage is the free act of the patron. Under our system it is a new doctrine that the ownership of a store carries with it a vested right in the patronage or that the ownersuch or a rawfolly callifes with it the vested right to so much labor-and at such prices as will make it profitable. Such doctrine followed to its logical conclusion would destroy all personal liberty, transform existing society and reestablish the feudal

nall are telling us our safety depends on the recall. If any man in office to monkey should begin, we simply rise and dump him, and put another in. And we, the sovereign people, in whom all virtue hes, shall hold the seat of judgment, RECALL deciding what is wise Should any man displease us, or stir our bile or gall, we'll take his trail and scalp him-our weapon the recall goods they must compete with the goods made by If one is independent and shies at our advice, we'll the pauper labor of foreign countries, that in or- | 20 upon the warpath and put him on the ice. Just as men went to Lincoln, to threaten, plead and rant: and this was their ambition-to-get the goat of Grant "He drinks" one pilgrim shouted, "and so of their goods they must be "protected" against the his head should fall." "He smokes!" another thundered, intent on the recall Said Lincoln, sad and somber: "I've heard that bit of news; I wish the other soldiers would drink Grant's kind of booze," out in the foreign country. That is the old story, Herein there hes a moral of use to one and all when noisy tinker statesmen insist on the recall.

Course to Incomplier Orex Mason

Said the gul m love to the man she loved: Thus we see how hypocritical and don't think you care so much for me as you used to. Just think! You were in town all day yesterday and on didn't call me up. You know you would never have done that six months ago "

Said the man in love to the girl he loved: "Why. dear,-I thought I just told you that I was with Rushworth every single minute. You know I was trying to put through that big sale, and that I didn't dare let him get out of my sight for a minute. Resterated the girl in love. "I think you would

have manged somehow six months ago before you Were so suite of me.

Retorted the man in love: "You didn't use to be so abominably unreasonable. Are you always going to be like this?" Flushed the girl in love: Yes, when I have so much cause to be. Why? Don't you think you can stand it?"

And there they are with a perfectly good quarrel on their hands and unkind words on their lips and heartbreaks in their hearts, for "to be wroth with one we love doth work like madness in the brain." And all for what?

All just because the man in lave didn't realize that what the girl in love wanted when she said he didn't love her as much as he convincing reassurances. And because, instead of these, he gave her cold, logical, sensible reasoning. is there. I wonder-was there ever a couple who did not have at least one quarrel along these lines?

I doubt it Can't you imagine Eve saying to Adam, "When se lived in the garden you used to be with me all the time, and now I seldom see you except at meals.

I don't think you love me the way you used to." And of course Adam answered, "But, my dear you know I didn't have any work to do then, and now I have to work for my living. I think you are uhr**easo**nable.

And poor little Eve, who just wanted to be told that he loved her quite as much, if not more, than ever, went off into the nearby glade to cry her heart out at the coldness of his tone, and Adam went back to his work berating the unreasonableness and bacon are preeminingly the meats of woman.

All of which might have been avoided if Adam had just taken Eve right up in his arms and said, But, dearest, you know I love you more every day You are the one woman in the world to me."

And now, you people who still think I'm a mar nasquerading-can you doubt any longer? Would I have known this if I weren't a woman'

The Short Ballot A Progressive Ideal

A Series of Talks on the New Direction of Political Reform Which New Proposes to Simplify and Pepularize Politics.

BA BIGLIVER S' CHU DR'-II--Why the People Are Not

The average American assumes that his city, county and state are democraples, inasmuch as they are governed by officers who are elected by the people. If they are democracles, then the people must be to blame for conditions, and corruption in politics must be simply the product of corruption among the people.

Modern political scientists as exempliffed in the new short bailet movement disagree, however, with the average American and flatly declarthat our cities and states are not democracles. True, they were intended to be such by the charter revision committees and constitutional conventions which planned the forms of government...The test, however is simply the common sense test of practice. It does it "democ?" Does it actually rehas it been found that the people are supreme?

The retort of the average American is that the people are not supreme because they have too lazy or indifferent that account. to "rise in their might" and take | control.

The people complacently decline for live up to the arbitrary official duties imposed on them by the constitutional But if the people do conventions. fall thus to do what in demanded of them may it not be a sign that they have been asked to do too much? settled by your opinion or mine. The question must be settled by ascertainng what the people think, judging by their actions. If certain work is set apart for the people to do and the people only-do-part- of it, that fact is a complete demonstration that too much has been asked. To say that the people ought to do

this or that is sheer impudence. No group of men, even in a constitutional convention, have any right to say: These are the requirements for effective citizenship. Let the people live up to them. If they do not the breakdown of the scheme will be their convention should say "How much political work do their majesty the people care to do?" And, having ascertained that, they should build their constitution accordingly, taking great pains not to make politics so elaborate or complex that the people wil fail to fulfill their-function completely We know by long and bitter experience that the average American citizen is not being effective in politics him-that is to say, he votes with est house in Europe. It might have most unjust imputation rests on the He does part of the work required of him—that is to say, he votes with est house in Europe. It might have memory of Loenora for having sufpresidents, governors and mayors and emperor and have been forgotten. She oned without interceding in his fayor something about, but when it comes has immortalized his love. That is one to the coroners, county clerks, aldermen, legislators, state treasurers, etc., rest of mankind. No poet ever owed he pays little attention and lets a few politicians have things their own way. blindly indorsing their choice for these minor officers by voting a straight ticket.

The citizens of Ohio, for example, have 47 offices on their ballot and five times that number of candidates. To say that the citizen of Ohio never casts a completely intelligent vote is creditable to the Ohio citizen. The average man would find great difficulty in remembering even the names of 47 separate favorite candidates. The mere fact that the average Ohio citizen does not vote intelligently for all the 47 officers is reason enough for simplifying his work. You and I have no right to say that the Ohio citizen should give more time to politics. It is quite reasonable, that the Ohio citizen has a few other things on his mind.

The ballot should be made short enough so that the average citizen. whether you or I think him lazy or not, actually will know what he is doing on election day. In other words, instead of trying vainly to alter the people to fit the constitutions and charters suppose we alter the constitutions and charters to fit the people; A given form of government is not democracy unless in its actual working the people are supreme. The reason the people are not supreme in this country, but are subject to an oligarchic ruling class called politicians, is not because of any shortcomings of the people, but is because the present state constitutions and city charters are not workable forms of Next talk-"How to Build a Democ-

POINTS FOR CAMPERS

From Harper's Bazar.

Provisions should be of the dry vabeans or army, if you have a preservice or even dried Limas, are indispensable. Dried fruits are today prepared so well that the prejudice arainst them is removed. Dried pease and rise are among the staples. Ham for camp Perhaps you can pick berries and catch lish to yary the menu. Ship your supplies to camp in eterproof canvas bags. Manufacturers furnish all sizes. Bedding and some clothing may best be rolled in your tarpaulins or flies, and roped for shipping.

THE HAMMOCK IN CAMP

Be careful how you hammock. There is a definite rule, but as trees have a wicked way of not growing always in accordance with it. supply of closely woven mosquite net ting will probably not come attice. One cateran even advices encumuding the tent hed in a cheese-cloth canops. But

Hundreds of pieces of baggage of all kinds are handled on the arrival of the people is not a question to be every train at each depot during the and announced that he would atte summer season here now.

TWENTY-YEARS AGO-TODAY

August 17, 1891.

"Burglars Rampant" was the head of an article in The Gazette announc-

ing that \$178 in money had been stolen from a boarding house on Boulder Crescent. Unsuccessful attempts at burglaries had evidently been made at several residences and business houses, and the police were rounding up suspicious characters.

The Rev. James P Gregg addressed a meeting of the Y. M. C. A. Dr. Greek was for many years pastor of the First Congregational church of Boston about a year ago.

Hirasi, a Japanese boy, arrived herei Colorado college in the fall.

Seven lamour Love Tragecties

History has always attached much importance to the Number Seven. "Of all numbers there is no one which commanded, in a higher degree, the esteem and reverence of mankind." The Gazette has taken this charmed number, and has woven into stories on a variety of subjects a Series of Sevens, beginning each Monday and continuing during

No. 4 LEONORA D'ESTE away for several years but communi-

Never morning wore To evening, but some heart did break." cated with her frequently. A letter -Tennyson.

A most pathetic love tragedy was that of Leonora D'Este and Tasso. Leonora was a princess of the proudof the davantages a poet has over the more to female influence than Tasso, and none has ever written so much under the intoxicating inspiration of love and beauty. The delicate inspiration, and all the high tone of sentiment, in his poems, may be traced to however, that after the first year of the adoration he cherished for the beautiful Leonora.

The poet did not meet her until she was in her 30th year, in 1565, but wards. to state a simple truth not at all dis- her beauty at that period must have been entrancing. Her complexion was he made a collection of his smaller extremely fair, her eyes were blue, and her exquisitely beautiful mouth, Tasso princesses. styles "a crimson shell." Tasso was From his early youth he had been a sworn servant of beauty. Leonora loved literature, and

Miss Ayer cwn private interests through the rises to the demands of the role in scientific operation of every foot of available farmland.

Colorado Easy of Access.

The invitation to the farmer of like southwest to participate in the "dry farming" conference this year comes from Colorado, geographically the center of the "dry farming" region. The meeting has gerat interest for farmmeeting has gerat interest for farm-ers along the Santa Fe railway. The basic principles of "dry farming" have been shown to be true cavil, but the details, so far as they affect localities, must be carefully studied and applied. Colorado is easy of access to delegates from every part of the west. The datas of the congress this year are sufficiently late to allow the county and state fairs in the southwestern states to send their "dry farm" exhibits directly to the international congress and to allow farmers of all sections to get through with their rush work.

The week of October 16 is the time, and the sixth Dry Farming congress will be the greatest agricultural con-vention in history. This is said in all Never before has the world been ready for thousands of men and women to come together from the four quarters of the globe, all equipped to understand and discuss scientific prob-lems pertaining to agrarian subjects. Never in all time before has the world been in a peace which permitted an universal interest in agriculture; never before has transportation been equal for bringing together the peoples of sity of the world for a study of the

Record Crowds Expected.

A year ago, at Spokane, nearly 2,000 their dollar membership fee, attended the sessions of the congress. Thousands more were there attracted to see the exposition of "dry farm" products, of drawn out for a holiday be-cause of cheap rallway rates, or res-tival attractions. There is every reason to believe that these crowds will be

in the sixth congress. The railways with the cachinations of the populace have been liberal in their rates. A it will be simply because the natives round trip fare, the equivalent of the in these parts do not respond to the effect for the congress. Scientific and practical farmers are

NEW YORK, Aug. 16.-A selling movement of greater scope and pro-portions than any that has over- of the markets were easy except in weeks of its alimst uninterrupted de-cline was withessed today. Prices fell Re higher, September outs unchanged portions than any that from three to five points in shares and provisions practically at yester-

shares extended to 10 points. of betterment. London's market for that rust damages had been greatly.

American securities being one to two exaggerated and predicted a full crop points under last might's closing. The in the counties which produce half the weakest issue in that market was Co. Wheat of the state, and a three-quarteakest issue in that market was Co. nadian Pacific, its 1085 of two points ers crop for the state as a whole, thing doubled here. Other stocks in- Experts claim an average crop for chiding Union Pacific, which has been the transmeter of the market, soon fell present a point or more, and by noon all the harvest. The present price level ap-

price today showing a loss of over 20 points in less than a foringht. In Trade in corn was chiefly of a pro-fact, the selling of the Harriman shares fessional nature. May option was for has been the most conspicuous feature, sale by holders of the nearer deliv-

New interest was lent to the movement today when it became rumored about that the Harriman estate had some time ago disposed of its holdings in the transcontinentals. Denials of these reports in authoritative quarters were accepted with some reserve in banking circles.

It is a fact that the heavy outpour ings of Harriman stocks, together with the retirement of Mr. Frick from the Harriman directorate have produced a profound impression in the financial community.

Three unimportant failures were announced in London. The market ralled in the last hour under the leaff of Reading, Union Pacific and Cana-dian Parific, these issues recovering from one and a half to two points from the maximum declines, but the close was heavy and hesitating. A notable feature of the session was

the weakness of many minor railway shares; few of which had suffered earlier in the reactionary movement In this list were included Wabash pro - movement ferred, Toledo, St. Louis and Western proferred, Kansas City Southern, St Louis and San Francisco second preferred, and Texas and Pacific.
Following the close of this market ables from London reported a panicky

condition in Americans there. The important net losses were: Lackawanna, 10 points; Texas com pany, 8; United States Pipe preferred Rock Island preferred, 4%, and General Electric, 34. General transactions here were approximately 1,000,000 shares, which is close to last week's

most active day. The bond market was heavy, with sharp declines in various speculative issues. Total sales par value, 32,-

United States government bonds were unchanged. Quotations Furnished by Otis & Hough

INVESTMENT SECURITIES Telephone Main 124 506A Mining Exchange Building

CHICAGO, Aug. 16 .- Grain and pro-Special to The Gazefte. CRIPPLE CREEK, Aug. 16,-In-

portant developments are reported from the Sheriff mine on Raven hill, operated under lease by Thomas Olsen and associates, who have proven an ore shoot on a flat lying vem tof a total distence of 60 feet, without reaching its terminal point. At a depth of about 80 feet from surface the voin dips almost vertically into the hill and sink ing has commenced. The ore body at this point is fully 10 feet wide, and as broken the ore is shipping in callead as now exposed carries high-grade values and it is confidently expected that as depth is gained, a rich ore shoot will be developed. The lessee are already mining and shipping be tween 78 to 90 tons a week, and have commenced stoping on the flat shoot while stuking on the vertical end of the vein. The property is owned by the Sheriff Gold Mining company.

Maggie G. M. Co.

The output made during July from the Maggle mine on Raven hill by Lessee Carl Johnson, totaled 30 cars of ore with an average value of close to two ounces gold, or \$40 to the ton This ore was mined in the prosecution of development, and the ore reserves were increased rather than exhausted. Sinking will shortly he resumed and the ore bodies will then lie blocked

out for future productions During July the Maggle Gold Minng company paid its few shareholders the stock is closely held-a dividend at the rate of 35-cent per share, amounting to \$6,375. The company is capitalized at 1,500,000 shares with 225,000 shares held in the treasury.

be determined. In all probability the leasing system now in force will he continued and in that case it is expected the lease held by Vanatta and CREATED. Brentlinger may be extended. The the present water level, an additional depth of approximately 300 feet.

Specimen Discovery.

A new yein for the Specimen mine, Stratton estate property on Bull hill, has been exposed between the 200 and property is under lease to Argail and Johnson, officials of Strattons-Independence. The new vein is reported from four to six feet wide, and a trial shipment loaded out yesterday was classed as of milling grade ore.

Jo-Dandy Mill. The crushing department of the mill erected by kavanagh and associates solution tanks will be filled and freatment commence by the end of the

September wheat closed a shade whelmed the stock market in the three weeks of its almost uninterrupted decline was witnessed today is Prices fell % filgher; September eath unchanged.

Due Uncerto five points in shares and provisions practically at vester-

of betterment, London's market for that rust damages had been greatly american separatics being one to two exaggerated and predicted a full crop points under last night's closing. The in the countles which need a full crop. weakest issue in that market was Caweakest issue in that market was the wheat of the state, and a three-quart-nadian Pacific its less of two points ers crop for the state as a whole being doubled here. Other stocks, in Experts claim an average crop for claim Union Pacific, which has been Canada is stready assured and if the the barometer of the market, soon fell present weather holds, a bimper a point or more, and by moon all the present price level apparently is attractive to the other layers boul of the weath. lowest level of the wear.

The continued weakness of Union constituted the greatest element of alarm, that stock at its tow price today showing a loss of over 20 points in less than a fortnight. In fact, the selling of the Harriman shares has been the most conspicuous feature throughout.

New interest was lent to the movement today when it became runored about that the Harriman estate had some time ago disposed of its holdings in the transcentinentals. Denials of these reports in authoritative quarters were accepted with some reserve in

banking circles. It is a fact that the heavy outpourngs of Harriman stocks, together with the retirement of Mr. Frick from the Harriman directorate, have produced a profound impression in the financial

Three unimportant failures were ar nounced in London. The market ral-lied in the last bour under the lead of Rending, Union Pacific and Canadian Pacific, these issues recovering from one and a half to two points from the maximum declines, but the close was heavy and heatating.

A notable feature of the session was the weakness of many minor railway shares, few of which had suffered earlier in the reactionary movement. In this list were included Wabash pre-ferred, Toledo, St. Louis and Western proferred, Kansas City Southern, St. ouis and San Francisco second preferred, and Texas and Pacific. Following the close of this market cables from London reported a panicky

condition in Americans there. The important net losses were The important net losses were Lackawanna: 10 points; Texas company, 8; United States Pipe preferred, 44; Union-Pacific, 4%; Canadian, 5%; Rock Island preferred, 4%; and General Electric, 34. General transactions here were approximately 1,000,000 shares, which is close to last week's.

most active day.
The bond market was heavy; with sharp declines in various speculative issues. Total sales par value, 25,-

United States government bonds were unchanged.

INVESTMENT SECURITIES. Telephone Main 124 106A Mining Exchange Building

CRIPPLE CREEK, Aug. 16,-Im portant developments are reported from the Sheriff mine on Raven hill, operated under lease by Thomas Olsen and associates, who have proven an ore shoot on's flat lying vein for a rotal disterminal point. At a depth of abou 80 feet from surface the vein dips almost vertically into the hill and sink ing has commenced. The ore bedy at this point is fully 10 feet wide, and as broken the ore is shipping in ourload lots at between \$18 and \$20 a toff. A streak next the foot wall of the velo all now exposed carries high-grade values and it is confidently expected that as depth is gained, a rich ore shoot will be developed. ... The lessees are already mining and shipping be tween 75 to 90 tons a week, and have commenced stoping on the flat shoo while sinking on the vertical end of the vetn. The property is owned by the Sheriff Gold Mining company.

Maggie G. M. Co.

The output made during July from the Maggie mine on Raven hill by Lessee Carl Johnson, totaled 30 cars of ore with an average value of close to This ore was mined in the prosecution of development, and the ore reserves were increased rather than exhausted. Sinking will shortly he resumed and the ore bodies will then he blocked

out for future production. During July the Maggie Gold Minng company paid its few shareholders at the rate of %-cent per share, capitalized at 1,500,000 shares with 225,000 shares held in the treasury.

Old Gold Mines Co.

At a meeting of the directors of the Old Gold Mines company to be held at the Denver offices of the company in he next few days, the policy of the company as to future operations will be determined. In all probability the leasing system now in force will be continued and in that case it is expected the lease held by Vanatta and Brentlinger may be extended. The lessees are prepared to sink the shaft from its present depth of 480 feet to the present water level, an additional the real estate within the following depth of approximately 300 feet.

Specimen Discovery.

A new vein for the Specimen mine Stratton estate property on Bull hill, has been exposed between the 200 and 300-foot levels of the main shaft. The property is under lease to Argall and Johnson, officials of Strattons-Independence. The new vein is reported from four to six feet wide, and a trial shipment loaded out yesterday was classed as of milling grade ore.

Jo-Dandy Mill.

The crushing department of the mill erceted by Kavanagh and associates at the Jo-Dandy mine on Ravel hill commenced work this morning. The solution tanks will be filled and treat-

THE IMMIGRANT TRAIN

In the Wild West and Far East

One of the most effective scenes, one typical of the early days, not only in the far west but associated with that grand migratory movement from the Atlantic to the Pacific coast, thay is graphically illustrated in the mild west is the immigrant train, which shows the encampment of the pioneers, the impromptu festival around the camp. fire, and the attack by Indians. Incidental to this feature of the program Ray Thompson's group of trained range horses will be introduced and perform feats with astonishing ease and grace and the comboys and ranch girls will give a delightful exhibition with a quadrille on horseback

A vividly portrayed battle scene that actually occurred in 1869, known as Carr's victory at Summit Springs, in which Buffalo Bill killed the leading Indian chief, Tall Bull, will be elaborately delineated. Other western scenes of historic in-

terest will be introduced in contrast so. the oriental scenes of the far east, in which the Arab, Cossack, Cingaleso and various Malay people will participate. The great congress of horsemen will be made complete so as to include the

high school by the addition of Rhoda Royal's 20 thoroughbreds.

The program as a whole will be of such proportion as to be long remembered in connection with the last abpearance in the saddle in our city of hat universally-known personage, Col. W. F. Cody, Buffalo Bill.

WEDNESDAY, MAY 20, 1914.

WELCOME TO THE COLONEL

MR. ROOSEVELT landed on American soil again yesterday and met his family after an absence of seven months largely spent in the heart of practically the only heretofore unexplored part of the world. He is a bit the worse for wear, but will be all right in a short time, every one will hope. When he went to Africa he was warned that a man past forty should beware of tropical regions, but apparently that year did him no harm. In South America he met the hardest physical conditions of his life, and is feeling the ill effects, but he has the satisfaction of knowing that he has accomplished something big.

To a large part of the American public the world has not been quite the same with the Colonel out of sight. There have been some great doings in the meantime in national and international affairs as well as at home, and the public has missed his free and frank comment, and his direct, honest manner of going to the root of things. White extending the glad hand of welcome home it is a good guess that the world is waiting to hear what Mr. Roosevelt has to say on a lot of things.

* WOMEN TRAINED TO COURAGE

THE highest form of education, perhaps one might say the main idea in educating, is to bring the individual to where be may work intelligently under orders. The man who has his mind and body under such control that they work as directed at li times gets results. The objection once held against educating women was that they could not take the higher training because of both mental and physical detects. Eighty years ago in your grandmother's time there were no colleges for women, and pioneers in the movement for higher education met herce and vindictive opposition. That seems a thing of the dark ages instead of just back of us.

These comments are brought out by reading of the manner in which the teachers and young women at Wellesley college acted at the time of the fire last March when College Hall was destroyed. This was the administration building and chief dormitory, and the fire came in the night. Miss Pendleton, that wonderful woman who is president of Wellesley, and whom Colorado Springs knows because of her visits here, had the emergency all planned for and it worked out right because the young women were trained to act and did not go into a panic.

Upon the alarm being sounded the teachers went through the halls arousing the students who immediately rell into line in companies of twenty. Then they marched past burning doors and smoking windows to satety. In a minute the company rolls of twenty had been called and it was found that eight were missing. Back into the flaming building rushed the monifors and saved the missing ones. Because of this splendid training there are no homes in America mourning lost thes on account of that fire, which destroyed a building worth a million and a half dollars.

Miss Pendleton's splendid executive ability was still further shown at this time in the way she met emergencies. It was a task worthy the highest ability to take care of 500 homeless, almost clothesless, young women, get them cared for, tickets bought to their homes and every detail attended to, and that while the building smoked.

It is inspiring-thrilling, in fact, to read of the heroism displayed. This splendid spirit will rebuild College Hall finer and better than ever, and will do it quickly, The money will be forthcoming for that and other buildings. A loss of that kind cannot halt a work so splendidly implanted and the college year will begin again next fall with the roster full.

LILACS IN THE PARK

. LTHE Macs are in bloom at Monument Whiley park. This is all the announcement need to cause a host of people to the city's finest breathing spot. ... wie Manted in great profusion when is prepared, red, white, yellow of the per a just spect of the Cutholic church to that almost appoint the church to that almost appoint the church to the church appoint the c them Miner riding or walking, and are scalland irradianly the entire length. Inc.

bushes have reached a fine size and this Spring are a m-w of blooms. Thereals not another such planting of Black in this part of the world, and anyone filled with a desire to bathe in one of the sweetest perfumes that nature distills and gaze upon a gorgeous mass of dainty blooms let him head down to the park in the coming days.

The statement made in The Gazette yesterday relative to the editorial on tipping, that "the journeyman's division of fifty per cent was stated too low, as they do not get that proportion," was incorrect. The following scale of wages is now paid in all union barber shops in this city:

"The schedule of wages shall be a guarantee of not less than \$13 per week and 60 per cent over \$20. No barber shall be docked for time lost providing he makes the guarantee. Extra men shall receive 70 per cent. Extra men's hours shall be from 11 a. m. to 1 p. m., and from 5 p. m. until shop closes, and all day Wednesdays and Saturdays. Extra men taking the place of a regular man shall receive the same per cent as the regular man, and no more."

A pertinent question right now is, how are we going to welcome those Texas-Oklahoma sociability runners who have been jolting over muddy roads for three weeks as living, breathing, advertisements of glorious Colorado. It is up to the Automobile club or some such body to organize a run to Pueblo or elsewhere and escort them. No doubt the members of the party have been greeted to a surfeit already and would rather take a quiet sneak to bed, but we can never stand for that. They will have to round up at the Chamber of Commerce, the Antiers or some popular place where everybody can get them by the hand.

Dr. Frederick A. Cook's press agents are flooding the newspaper offices with literature concerning the controversy as to whether that traveler or Admiral Peary first reached the North pole. _Some of the arguments sound reasonable renough, but the public will never be able to forget that Dr. Cook ran away and hid out for a year when confronted with the task of showing his proofs.

[All letters intended for the Open Parliament lished without the eignature of the writer. Communications for this department should be limited to 400 words and should be free from personalities. Religious controversies cannot be conducted in this column.j

THE "MOVIES," To the Editor of The Gazette:

I have read with much interest the communicaions in your Open Parliament regarding the

We are all seeking for betterment of conditions, both morally and intellectually, and the movies have the opportuality to help elevate the people to a higher standard

I would like to see eradicated the numerous gun" plays and murders committed. None of the reels tend to have a moral, which is doutless seen by very few of the audience, but to be constantly reminded; of cowboys, outlaws and other crimes should be In the repair department of a jewelry shop hangs done away with, for they make the wrong impression on the vouth that attend.

It will also be noticed that the villain is always smoking a cigarette, which should be a lesson! of the coll of these dope sticks and their ultimate result in degenerating the mind and health of those thouse them.

We see enough of the rough side of life every day, as well as the troubles that are depicted. The public have it in their mind that the west is owned ! and rin by the cowboy. Let us change this impression by condemning reels of this sort. If such i opditions did at the time exist it is best not to hate on it forever, but to forget it and work for advancement. A PATRON.

Colorado Springs, May 19

TAXATION, CAUSE AND EFFECT. To the Editor of The Gazette

It has been reported in an eastern paper that a tmer commercial traveler tuned speculator and with a partner went to Mexico, where they bought yer x 900 teres of land. Could they have remained there five more years they on ld have cleared \$50%-But the partner was killed all was lost lathe capitalism of the natives, and the remaining speculator bately escaped across the line with his

This adventure luadvertently gives some direct information as to the actual cause of the Mexican ers have apparently formation and if noticely (b). Francesco V the is taxing for the the condition is to produce the hives uprising So many cattle so many sheep and so appears to claim them they are finally forfeited. Ne of peace the many chickens belonging to the owners of the big to the state. Most of the accounts are only a few from the bhild fine Public bedies estate were killed and buildings were buried in dollars but some range a ligh as a thousand. It ulaht-rider tengeance. All this means that these seems difficult doesn't it to believe that taken Mexicans having sold their birthright for a messicould lose track of a thousand dollars. of politage to land exploiters have become bandits, thieses and peons. Ignorantly parting with opportunities which yield a cont nail-million to the born. To regain their land the only course when to call for it because I didn't like the clerk anarchy prevailed was to resort to fire and sword This was the economic cause and effect of the present war in Mexico.

Land the great reservoir of nature is the enduring factor of production in Mexico as well as in Colorado. Everything else constantly decays. Na- was only worth about \$10 but she isn't a person ture has provided that if the unual rental value who could afford to lose even that of land be appropriated to public use by the community which makes this value there will be equal Pot". U. L. SPIVINS. Colchado Springs, May 19

From the Joplin (May) WAY John W. Gunn of Mulberry and Jesse W. Gunn of Pittsburg have enlisted in the United States army at the local sorubiter station

HOPING FOX THE BEST. From the Manistee (Mich.) Advocate. The guests departed at an early hour of the morning, wishing Miss Konioke a happy future as she leaves Thursday for Milwaukee to reside.

AS IT WERE. From the Oblong Oracle.

A merchants' protective association, comprising the several towns of this and adjoining counties, it seems, could be profitably organized with an object in view of detecting and locating the numerous thieves now permeating the country.

MUD

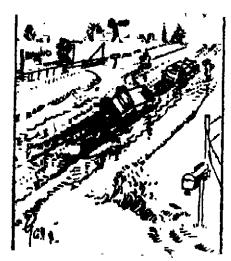

WY GEORGE FITCH Author of "At Good Old Siwalh"

Mud is earth which has been put in soak by

Mud is the most valuable thing in the world, After earth has been mud for a while it produces crops without which mankind would curl up and die like a baby sparrow on a hot doorstep.

However, since man does not raise crops on the country roads he has no particular use for mud in hat particular spot.

All over the central part of this nation the country roads are paved with mud, Mud makes the worst pavement in the sorid. A five-mile mud pavement in March is as effective as a two-inch oak jail door for keeping a farmer at home. There

deor for kecking a farmer at home

hundreds of millions of bushble of grain on the farms of America in the early spring but they do not have much effect upon the cost of living because they are separated from the market by several miles of roads which clasp the farm wagons to thair hosom with a glad gurale and refuse to clear them until three teams are hitched on.

Whenever mud is used for making reads the farmer solls his grain when the roads are firmest instead of when the market is firmest.

American mud is extremely useless on the country roads. It is even more useless on the city street. It is hard to work up a worry over the From the Baltimore Sun fact that the American business man does not We talk a great deal al must bear the name and address of the writer, net worship old masters and broken nosed statuary. must bear the name and aggress of the writer, ast worship old masters and broken nosed statuary. of war, but few of us realize what it and the control of the confronted by the seasy to become distressed over the seathetic means till we are confronted by the taste of a man who will wade down town ankie in the figures. According to an estaste of a man who will wade down town ankie Retual figures. According to an esdeep in last winter's mud all spring without calling title to around at the city-hall with a rope and plending to be allowed to hang the administration. The efficiency of American city government can

be measured in some ways by the amount of mudon the American street. If the streets are profusely decorated with mud some of it will almost certainly get upon the reputations of the aldermen before very long.

Take a glance backward to 1848 James K. Polk, in whose presidency the war with Mexico over Texas was fought, was not a candidate for re-nomination. He did not desire a second term. Moseover, his health was broken He died in the summer of 1940, only a few months after the Whise had taken charge.

The war turnished the Whize with their candidate General Taylor, more than General Scott-though the latter had had great success in the fleidcaught the popular-tanes, and he led his party back to power. But he occupied the White house only some 16 months. Had be fived be might have secured a second term. He was less of a politician than Jackson, but had all of Jackson's firmness and quick

but by that time the Whig party had erally were at sixes and sevens. Besides, there was this difference between Scott and Favlor which told on the masses. The former was called "Old Fuss and Feathers:" latter "Old Rough and Ready,"

Still, although General Scott was beaten, the Mexican war again furrished the successful candidate. Franklin Pierce had been a sensior in congress, but had not distinguished himself there. He had not shone respiendently in Mexico, but had rendered! gord service as a soldier. So that when after his nomination some Democrata inquired, "Who the hades is Franklin Plerce?" he reply was, not Senator Piece, but General Pierce. His war record carried him to victory

In that war the American forces noved in two directions. General Scott advanced from Vers Cruz, which he had had to carry by siege. General Funsion is ashore there now without an effort. General Taylor crossed the Rio Grande, and had to fight for every station of importance on the way down. But both American commanders were too much for their adversaries and made considerable miliwere loudly acclaimed at home. If an advance from Vers Cruz is or-

dered, General Funston, a Kansas man, will have his opportunity. His father was a Republican leader of prominence in the Sunflower state, and served several terms in congress. If the Rio Grande is crossed, General Wood, it is understood, will show the way. He is not known in politics, and not susperted of political aspirations. Neither he nor General Function is a graduate of West Point.

.. HAVE DARK HAIR AND LOOK YOUNG

NOBODY CAN TELL WHEN YOU. DARKEN GRAY, FADED WAIR WITH SAGE TEA.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur Whenever her hair fell out or took onthat dull, faded or streaked appear ance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage an! Sulphur Hair Remedy," you will get a large bottle of this old-time recipe ready to use, for about \$0 cents. This simple mixture can be depended upon 11 to restore natural color and beauty to the hair and is splendid for dandruff dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied-it's so easy to wife: No. You simply dampen a sponse or soft brush and draw it through Shor hair taking one strand at a time By orning the gray hair di appairs and ar application or two, it is restered to its natural color and looks, id'r st soll and noundaut.

that he was not a lawyer and was not Of the men indicted by the grand prepared to advise what he should do The defense expects to Close its case jury, 31 have been arrested and 28 have about the proposed purchase, but on not been taken into custody. It is Mr. Mellen's statement of the situation elleged nine indicted strikers have dis- he thought there might be nothing objectionable in it. Mr. Mellen added that the president said he could countenance no illegal action in the matter, and suggested that he confer with Commissioner Lane of the interstate commerce commission. From Mr. SUFFERING FROM FLOODS commerce commission. From Mr.

Was Urged to Explain.

Mr Folk then offered in evidence the reply to that letter, made the following day, in which Mr Mellen wrote. It has been thought advisable by all concerned that just as little official information should get out to the news-Ispers regarding the Boston & Maine n atter as is absolutely necessary. This was agreed upon by Mr Ledyard, Mr. Tuttle and myself and we are acting on this theory at the present time. The

Washington situation I have, I think,

ompletely cared for." Billard Transactions.

Mr. Mellen told of his relation's with John L Billard and of the transacions between the New Haven and the Billard company. He intimated, with a smile that Mr. Billard was a shrewd trader, saying that, when he was conoucting with him any business, he him on the subject never looked anywhere except straight into his eyes.

Mr. Folk read a letter from H W. Whitney, written to Mr. Mellen in May, 1907, in which the "little father at Washington" was fefered to. "Who was the little father at Wash-

ngton"" he asked Tets see, 1907. I think probably

"Did you have a conference with WILL LEAVE TODAY President Roberelt concerning the Boston & Maine purchase?" asked Mr.

"I had ' replied Mr Mellen, "some time in the spring of 1907" "What reason did you give him for

Roosevelt's Advice

"The shares were going to be sold, in my judgment, and they were likely to go to lines possibly out of the country notably the Canadian Pacific or the Grand Trunk. He sent me to discuss the matter with Mr. I are who was then interstate commerce commissioner and I went and talked with Mr lane and then went back and saw the president and I got this statement from the president, that he could not help me in any was ahape or in do with it manner if anything I did was found: to be in violation of the law but, from Mr Billard?" on standbornt assuming that I told him the start as it was, it seemed to look elsewhere than right in his eyes. lim that if he were in my place he DENVER May 19 - A motion to would be in ined to make the pur-

COLORADO USES ONE-FOURTH

OF ITS TIMBER IN MINES!

Approximately one-fourth of the imber cut in Colorado is consumed by the states mining industry, says the department of agriculture in a bulletin just issued on Rocky Mountain mine timbers. The total annual consumption of timber in Colorado for mining purposes is about 51,600,000 board feet, valued at something like \$1,250,000

Lodgepole pine, or white pine as i a sometimes called locally, is the timser most used, with Englemann or white spruce next. Douglas fir, the go-called red spruce of the Rocky Mountain region, was once the favorite wood for mines, but its growing scarcity has brought the two other woode into prominence.

Fire-killed lodgepole pine and Engeimann spruce, of which there is a great quantity in the Rocky Mountains, ought to give setisfactory service in mines, says the department, provided it is free from decay. Beams cut from timber standing dead for about 30 years showed a Atrenath When tested by the department, intermediate between that of green and of airstried material out from live timber Drving increases the strength and stiffness of the wood, but decidance ita toughneas.

Attention is called by the department to the possibility of using preservative treatments to prevent decay of timber when set in the mines. As a general fule such treatment. If properly applied will work for economy in the foos run-

Baye and Girls time Garite Bled Pro tertion After Loginsing Story of Makined Tangatar

The chirping of a ape-legged bird has won more than 18,800 school chirdren to the protection of bird life. This little bird, a black-kunded greebenk, is a part of Dr. W. W. Arnold's "bird hospital," which he '- tablished inst fall to care for those hisbelt to him by the school children. There are five birds in the hospital at this time, all thoroughly tamed.

The growb-ek we shot last fall a

F., will meet tomorrow night in Odd leg and a wing being broken. A school girl found the bird and took it to Dr. Arnold and it received careful attention. The wing was healed but the leg was shattered and had to be amputated. "This little stump of a leg is doing more to make the children approclate bird life than all the books that could be written or all the lectures that could be delivered," said Dr. Arnold, "At the lecture at Fort Morgan on bird life when I showed 'Blackie' to the children. a number of them cried. The bird kept up a meily song all the time I was talking and I would wager that none of the children who saw it will ever harm a bird again. All the way up and all the way back the little fellow kept up his song, attracting con-

siderable attention." Dr. Arnold has given his bird lectures before all the Colorado Springs schools and has addressed the Manitou and Colorado City children on the sub-

"Colorado Springs is the only city in meet Tuesday night at 8 o'clock in the world in which the children feed the Y. M. C. A. building. State Deputy | the birds ayetematically during the winter," Dr. Arnold stated. "Many of the Sunday schools take up collections Colorado Springs camp No. 7228, M. to buy food for the birds and the park W. A., will give a social entertainment commission has established little feedat the hall Wednesday evening for ing pens and platforms. At the present members of the Royal Neighbors. A time the parks are full of birds."

Dr. Arnold's "bird haspital" is unique. At present it contains five patients. In addition to the grosbeak, there is a horned desert lark, a house finch, a chip sparrow and a acreach owl. All were brought to Dr. Arnold by school children after they had been hurt. The majority will be cripples for life, the R. B. Fleming was fined \$1 in police doctor says.

Luncheon and Bridge.

Mrs. Augusta H. Loomis will entertain at a luncheon Tuesday, and Wednesday afternoon she will give an auction bridge party. Both affairs. will be given at the Acacia hotel, **

Mrs. Jefferson Haves-Davis and little son, who have been spending the winter and spring at Rediands, Cal. returned home yesterday.

Mrs. A. M. Korsmever of 219 East St. Vrain street will leave tomorrow for Kansas City for a visit of several weeks.

Not So Strange After All You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets You would not, however, if you should give them a trial, They strengthen and "Nothing did me the least good until I began using Chamberlain's Tablets It is decidedly the best medicine for For sale by all dealers.

A PERSONAGE

From Lippincott's. She loomed hig in the eye of the public, and occupied no inconsiderable spece in the community.

Weighed in the balance, she was never found wanting nor could any accuse her of lightness.

She was the largest contributor to 'votes for women," and the stoutest opponent of the "antis" Her husband declared that she was

sitogether too much for him. Her banker found in her a woman Her pastor

rounded character. Her admitters called her a streat lady And the women all called her fat

A Peace-vunday Meditation

"Glosy to Cud in the Higher, and on Forth Peace, Cood Will Toward Men."

RUSSIAN LITTEN IT TO IT TO

الوا والواداد والمادة المادة ا 一時中午中午十十年 PARP PRIFF PRINTER FIRE

- 2 God the All-righteons One! man hath defied Thee, Yet to etaulty standeth Thy word; Fairchood and arong tall not taxey beide Thee; Grant to us peace, O recal merciful Lord.
- of God the All-wise! by the fire of Thy chast'ning, Earth shall to freedom and truth be restored; Through the thick darkness Thy kingdom is hastening; Thou wilt give peace in Thy the, O Lord.
- 4 So shall Thy children, in thankful devotion, Praise Him who saved them from peril and sword, Singing in chorus hare ocean to ocean. "Pe ce to the nations, and praise to the Lord."
- THE AMERICAN HYMNAI, pablical by The Contacy Co., New York

y F. C. Ny, Man Art by J. a Fillet , 1890

"And the Lord will judge between the nations; and they shall beat their swords into ploughsheres, and their spears into pruning books; nation shall not lift up sword against nation, neither shall they learn was any a see." Isaiah 2:4.

"Let us pray for the pance of the abole audid; for the wellare of God's holy churches, and the union of them all; for healthful seasons, for abundance of the fruits of the earth, and for

TN this entire lot of 22 Dresses there are no two alike. They were specially purchased at a tremendous reduction but nevertheless are perfectly fresh and new. The very last word in summer styles—dressy types suitable for wear on many occasions. They are made of taffetas and crepe de chines, some combined with messalines and novelty silks nearly all with fancy bodices of chiffons and laces. Several styles in shades of blue, brown and black- all the others are the season's new fancy colors nearly every one different. We believe they are as beautiful a lot of Dresses as have been shown here this year certainly are the newest styles and the greatest Bargains! Most of the lot are \$35 values others were \$30 and up to \$40. Your choice of them all

Solanti-le Mathada Boing Depr of the land the oughout the Country

WASHINGTON, May 19.-Detailed studies of tocal road building systems in 180 counties are now being carried on by the department of agriculture in cooperation with the state highway departments and local road authorities, known The purpose of this study is to discover the points of excellence and defects in existing local methods of building and maintaining roads which will aid the state authorities to put local road management on a systematized basis. The cooperating state authorities have been asked to designate counties that present typical and exceptional features as to topography. character of road materials, methods of construction and maintenance, administrative organization, methods of From, these lists 100 countles will be selected, and in these counties the division of road economics will make intensive studies.

Present Methods Poor.

This investigation is prompted by the county can develop its roads. At presimprovements vary from calling on mining what system or combination of farmers for a certain number of days systems works best in actual practice.

CRISIS DEMANDS LOYALTY

"A WAR of agreement is not a wer in ation it is a press thing to I'e, & ' a war of twice is a prod in which it is a proud

Thus spoke the president of the United States last Monday at the Brooklyn memorial services for the Vera Cruz dead. Mr. Wilson is a sincere, moral man, with high ideals, and yet he has shown that he is a man of action and determination. On general principle he is opposed to war, just as we are, and evidently he is determinedly trying to keep-out of a war with Mexico.

The president has a big idea in that the American people want to serve Mexico. We do want to do that, but we want to serve America, too, and the best way to serve both is to make sure that the server does not become discredited in the eyes of the world and its own people by a nambypamby policy.

Most people feel some sympathy with the president in the delicacy of the situation because he is under great strain. Hoping as he does to avoid a war in which many lives and a vast treasure will be sacrificed, he has to satisfy the ever increasing pressure that, no matter what may be the cost, American honor must be maintained and American citizens given equal protection with other citizens.

Yesterday's dispatches indicated that a war movement is imminent against Huerta. owing to the disappoint we of Parks, a uniformed soldier, and the detention of Consul Silliman. It is always such incidents as these that precipitate trouble when relations are strained. The public should not attempt to criticise the administration in such hours as these, because we do not know the inside facts, and we have no right. to know them at this time if such publicity reopardize the cause of the nation. There will be plenty of time to criticise when the facts of history are spread before us

It seems probable that the United States forces took Vera Cruz not because some sailors were detained for a few hours, but because a German ship was approaching with stores of arms that would eventually be used against American fighting men, and that she must be halted legally. Perhaps the president has now determined that the Parks affair furnishes an incident on which the United States troops may be sent to the capital of Mexico while Huerta still retains it.

Why, is asked? Not to humiliate Huerta. Oh, no! the United States is bigger than that. We must be in a commanding position at Mexico City when the hordes of bandits and cutthroats who are now sweeping down upon the capital get there That is where the war of service may come in speedily

- It is the part of patriotism to sustain the administration in every way at the same time demanding that national honorand integrity be maintained, and that when we do strike it shall be with a winning blow.

PEACE DAY COMMENTS

MAY 18 is Universal Peace day, and in another place in this paper will be found. music and words of a song and some proper texts for a Sunday Meditation on the subject. This is put out by the Federal. Council of the Churches of Christ in America with headquarters in New York The day is selected as being nearest the anniversary of the first Hague Conference.

The Gazette gladly gives space to this, because as an abstract proposition peace is desirable, and we hope for the day when the uplift of the human race will be such that the great object of universal peace may obtain. There is no possibility of any immediate results, and we are not convinced. that it would be a good thing at present but that is no reason why we should not keep the ideal before us and make the effort. That the movement is bearing fruit and growing there can be no doubt

Our belief is that peace is not always the best thing. An operation that is necmany is better over with quickly, before the patiant's condition is run down and considerations set in. That is the reason why all along we have said that the Wilson intration should act promptly in dome at Maxico what may be necessary, so poor in it feels fired prepared beyond a

positivity of a stip. His months of American to dering in Catal radded the upopte of that rich Island aut of the medieval condition in which it had floradered for four centuries. Some ugly blood futting in the Philippines is making a self-cutoffin government and intelligent closures meaning. people out of Pacific ocean savages. Moral suasion doësn't appeal to a head hunter. 🗻

Oh, no, p wir is a very necessary thing at times, if waged in a just cause. "But war is a horrible thing, all that General Shariman said it was and then some. This is the second year of the call for these observances. Last May 5,000 churches observed it. This year it is hoped to have 75,000.

RECORD NEEDS AN EDITOR

A REFORMER of the La Foliette type needs a vast amount of publicity, and in time naturally becomes obsessed with the idea that everything that he touches becomes vastly important to the world, so it is not astonishing to find that his colleagues have found themselves disgusted with the Senator's unwarranted use of the Record. What the Congressional Record needs is an editor with a big, thick, blue pencil, or maybe an ax would be better. At least he should have power to cut out the unessentials. It would not be a happy job, because he would be editing the copy of those employing him. Everyone who has worked in a newspaper office knows the disappointment and dislike the inexperienced writer conceives for the fellow who edits him. There is just one good reason for publishing the Record, and that is to place in the hands of the public an accurate account of what takes place there and nothing more. If it can be put into an easy form of reading all the better. It is a shame that the pages are weighted with alleged utterances that some numskull would have said on the floor if he could have gotten the floor, thought about it in time and had the ability to deliver it. The thoughts and writings of those \$1,800 a year private secretaries occupy more space in the Record than do the actual speeches of members. Let us hope that La Follette's excesses may have strangled the goose that hatched the political speeches.

The fact that not half the people who wanted to see the Y. M. C. A. circus each evening could get in, and every working night at that institution finds the athletic quarters too cramped, suggests that the directors might start discussing that/ enlargement to the gym on the north. They already own the ground.

[All letters intended for the Open Parliament must bear the name the address of the writer, not necessarily for publishion, but so an evidence of good faith. Controve, will letters will not be pubished without the signature of the writer. munications for this department should be limited to 100 words and should be free from personalities. Religious contreversies cannot be conducted in this

APPLICATION OF SINGLE TAX.

To the Editor of The Gazette. John D Rockefeller, Jr. has failed to display the proverbial shrewdness of his father. To have made concessions to public opinion would have done much to altax opposition to privilege. Insisting that his legal power to oppress be upheld and refusing all promises of leniency in making use of it he has desit predators privilege a harder blow than any agitator could have dealt

If Colorado wants permanent industrial peace. she must make economic freedom possible. This can never be while the natural resources of the state are held by monopolists with power to withhold

I them wholly or in part from use The application of the single tax will put these monopolists in position where they cannot afford to have a strike on their hands or to hold any of the mining lands unused. If in spite of this they should allow a strike to occur capital and labor having access to unused lands it would not be necessary for strikers to remain in idleness until the employers gave in New John would be open, to them as soon as they quit the old ones and they | could tell Mr Rockefellers | epresentatives that they were welcome to get all the strike breakers they

John D. Rockefeller Jr. mays he stands for the instienable right of every citizen t work without interference whether he be a union man or a nonarton man. All right. Why not establish what Mr. Rockefeller save he wants and see how he will

Every ritizen has the instienable right to work for instance there are unusued mining lands in t southern tolorado, the right to work on which Colorado minera union and nonunion are now denied. Why allow this denial to continue. Much of this land belongs to Mr. Rockefeller, who stands for the ") to work. He even sava he is willing to sacrifice millions to establish that tight. If he means what he says he will support a movement to free colorados natural resources from the grasp of monopols. He won't object on account of being; a monopolist himself for is he not willing to sacri-

But whether Rockefeller means what he save of not why not go shead and take his advice anyway. Apply the single tax to Colorado, free the state a regources and establish the right to work P W BOGARDUS

PULLMAN PERTERS TO BE PAID

From the Philadelphia Ingelirer. California has tuken the bit in her teeth and tive. The Mexican policy of the ad-proposes to make the Pullkan company pay its ministration up to date has been one porters living wages so thereit will not be necessary. For the gublic to give gamerous tips for service which the company cugat to provide. Thirty days been alloudly we fright to was ply with the order. We hope other states will follow. We have in Pennsylvania a seminisaton whose attention should be siled to the same matter.

The Pullman company is no eleemosynary contern. It pays 8 per cent on its stock regularly, not Many /s*is ago paid an extra 30 per cent dividend in each and in the last few years has issued over 100 per cent in stock dividings and has an enormous surplus on hand. It can tably afford to pay its employes living wages. There is no service on the is a proud thing to die part of porters which is not normally included in the service of the company with the sole exception of polishing shoes. The porry's work long hours and deserve to be paid living wages, but the patrons ought not to be compelled to contribute

THE NEXT ISSUE.

From Collier's Weekly.

Is countrywide prohibition to he the next areat "issue" in mational politica? There are certain signs and portents. Jesephus Daniels thinks so, we deduce, while Senator Mo.ris Sheppard of Texas

There are two taude before the American people woman suffrage and prohibitionwhich will not down until they are settled right. One of the other of them is an issue in nearly every state, and the politicans cannot avert them.

That is one straw. Here are two more. Cato Sells commissioner of Indian affairs, has written in a letter to each of the six thousand employes of the Indian out vice:

I believe that the greatest present menace to the Eatican Indian is whisks ... There is nothing that can induce me, since I have then the oath of office as commissioner of Indian affairs, to touch a single drop of any

sort of intoxicating liquor, and this regardless of my atthude on the prohibition question On one day chosen at random 38 memorials and petitions were presented in the senate and of that number 21 ramonstrated against or favored the adoption of a constitutional amendment to prohibit | end brutal "General" Villa but an the sale, manufacture and importation of intoxicating beverages. The proportion holds true vir-

Talks on Thrift

petitions come from all over the country.

SAVING FOR A HOME.

Thrift and providence are primary qualities necessary to all who are to make the most out of life and its opportunities." "Mayor Newton D Baker of Cleveland.

There have been meny plans to force the habit of thrift upon people otherwise careless of their savings, but it is doubtful if any other system excels that which a man voluntarily assumes when he deto acquire ownership of his own home by means of monthly payments, covering principal and Bo fickle is teh human mind that the only abso-

iute guarantee of carrying out a good intention is to make it impossible to violate it, and that is practically what is done when a man puts himself in a position where he must keep up certain regular payments or run the risk of losing his home Every normally constituted man has the ambition some time to own the roof over his head. It

is the best way to live To accominish this object the average man who must depend largely upon his own efforts, requires energy, self-reliance and a determination to overcome all obstacles.

If he starts a savings bank account and makes exekly deposits therein to accumulate the first cash payment invariably required of a house builder or buyer, he will learn lessons of method order and punctuality n business arrangements that will stand him in good stead when he undertakes to swing the house-owning proposition later on And even if you don't make a lifetong home of

the first house you buy or build nevertheless you are doing a wise thing to save and invest in this way This is illustrated by the typical experience of soung couple who started housekeeping in a New

Jersey auburb of New York a few years ago With the aid of one of the building and loan assoclations which abound in New Jersey, they built a house, after having paid for their lot with sayings withdrawn from the bank for that purpose

At the end of several years they had an equity in the property amounting to about \$4,000. At that time there came to this man an aspecially kood business opportunity in another state and he was com-

relied to sell his home in order to move This he was able to do easily receiving a good ash payment on the property and a second mortgage for the balance (the building and loan associaion holding the first mortgage, which was assumed by the new buyer of the house).

So the original home builder now has the income from the mortgage to add to his other earnings while his successor in the ownership of the house is steadily increasing his equity by monthly pay ments and in time will own his home free and

It is plain that fortune must, fairly take some of us by the name of the neck and hold us to force riches upon us. Few wage earners, or salaried persons fullowing their own sweet wills acquire a competence through willing thrift and abstinence. Many there are who are even now rearing dividends from long years of compulsors saving who have been enriched by the experience in spite of themselves

Start a savings account buy a home and force vourself to save T D MACGREGOR

A THE RESERVE TO STATE OF THE PARTY OF

A "WAR OF SERVICE"

roup the Philadelphia Engalier. Very taun-ingly fishident Wilson phrased his memorial to our ded of Vers Crus. His remarks were those of a man thoroughly conscientious The president has lofty ideals. His motives all must respect, for he is aincere-undoubtedly so But the most conscientions of men may still make mistakes grievous mistakes-and it is the mistakes, after all, that count; although we may still respect the mutive. The Mexican policy of the adlong, continuous mistake Said the president in his tribute.

"We have gone down to Mexico to perse mankind if we can find out the way. We do not want to fight the Mexicans We want to serve the Muxicans if we can, because we know, how, we would like to be free and ho wewould like to be served if there were friends standing by ready to serve us. A war of aggression is not a war in which it is a proud thing to die, but a war of service is a thing in which it

"We want to serve the Mexicans 'le the keynote Ah! Mr President, but how have we served them? A year ago we undertook to dictate to them. We told them that Huerta was not their constitutional head. We refused to recognize him as such. We sought flower. to interpret their constitution for them, and this was not the "service" that the intelligent element among them either desired or accepted.

With great unanimity Americans third prize resident in Mexico protested that it was not from Huerta that they wanted to be saved but from the murderous and Zapata. With the same unanimity measly every foneigner living in Mexico joined in the Americans' protest. They begged, they argued that Huerta should be supported, because, although his hands might not be clean. he at least exercised responsible authority given him by a constitutional congress, while the hands of his enemies a thousand times binodier, were upheld only by the rifle and the dag-

For one year our "service" to the Mexicans has been not an interference with the terrible string of unspeakable crimes perpetrated against Americans against foreigners, against Mexicans themselves by the ignorant actual support of Villa Mr Bryan has besited over his own signature tually every fay the man la is in session. And the that the victorious career of Villa was made possible by the action of the administration in parmitting him to get all the guns and ammunition be wanted across the border. Our "sersire" has been directed against the only Mexican government that existed and in favor of the strengthening of the handit chieftains And when our marines and blue-

lackets, want, to Mosk on hat was the sumidistriction's purpose we inite answer that question by the only official record that exists—the message of the president to the congress of the justification for-what" time:Mexicans? No-to force Huerta to sainte our flag over an exceedingly this bal speidant. It was to be no war Vera Cruz the troops have remained and in the City of Mexico Huerta has troops sent to Mexico for anyhow?" wilderment "

dead bodies of our fallen. For the firm ; ing and the hers are then grain fed. time he admits that we are at war A war of service is a thing in which It is a proud thing to die ' he declares. to 'serve the Mexicans if we can'

Now the president is getting on lanoil means, let us change the record at throughthe first opportunity for according to the record we have gone down to or the United States to be in

breigners have a perfect right under on sale treats to live and do business in t Mexico It is the duty of the United. States to demand and receive ordinary ny dyes neace in Mexico

If we have really gone to Mexico not for the mere purpose of wringing find a place in the market reports salute from Hueria but to serve mankind ' if this is actually 's war of service" we have got to be in a rosition to dictate and that position there to the oncoming ermies of murder plunder and chies unspeakable. ess blunds as boodnamor issiaga You shall not' And once there we few hours can welcome not only the A.B.C.s but all the other Sour and Central American countries that the alphabet troduces in an effort to plan for Mexco a constitutional government that sill rase muster at Washington And this is what we must do unless the president a words are mere meaningless phrases

COMMENTS From the Philadelphia Public Ledge:

The country has a great deal of con fidence in Secretary Garrison. It is convinced for instance that he will not permit any "watchful waiting" to prevent proper military precautions at Vers Crus and will tember his hope for prace with responsible preparation for the tentrary.

protection for its citizens. Mexico into 11 different classes by the trade viust be made a tage place for an one, and sometimes more than it. The best to go to and live in and in thus serve the market affords is called extras ing Americans and foreigners gener : 80 per cent fresh, the second is ailed of cold storage ally we will also be serving the Mexic, brime firsts. So per cent fresh, then and themselves since such service follow thats 45 per centifically ordeharv firsts 30 per cent fresh In all But how is this to be attulued? The the grades that follow the word fresh! irlying of Huerta from power and the is not used, presumably they are just eggs. They are. No. 1 dirties.

One would think there was nothing. There is no regular way of keeping Vera Cruz and watching and waiting in the egg line worth less than a brokon egg but the trade has given eggs the cohesive hope of plunder mather to that show a decayed spot before the Nerrun the City of Mexico wont ac leandle light the name of ispots. Low er down in the scale of Infamy it is not possible for an egg to go and still

> FLAVOR OF EGGS Eggs like milk, readily absorb odors about them. They should never be

r the City of Mexico itself. Once∮packed in amusty straw nor in had smelling boxes. They should affer te allowed to get wet. Such treatment eggs if kept in country stores in the will be noticed in the flavor within a

The seasons also have an influence upon the flavor and keeping quality of eggs. The March and April eggs are the hest and can be kept the longest. The October and November eggs are the next best

The reen grass and other things that robs the eggs of firmness and keeping

STORAGE.

eggs are of better keeping quality than butter a moderate extension would do thru of any other month, they are the (Continued on Figs Thirtsan).

storage egg is better at Christman than an Auust storage egg. bacquee it During the latter part of the month in the market as a whole there are United States. That messive asked of March all through the month of more eggs in storage about May I than

> the only good way to keep eggs. Great care is required in storing eggs.

> The lofts where they are kept must b scrupulously clean and kept clean as well as ventilated. There must be no other acticle capable of giving off an oder stored in the same room.

A whole roomful of eggs has been known to be tainted by the odor of lem one stored in an adjoining room and separated from the eggs by a brick wall. Eggs in cold storage will give up limited number of new laid eggs reach an odor acquired in storage when the source of the odor is removed.

The temperature required is about 3: mankind if we can find the way, and of eggs within a day or two after they degrees Farbenheit Under proper conditions eggs can be stored for rer months and come out in remarkably good condition. The less an egg is handled and the sooner it can go into storage after it is isid the better. Lit tle change takes place in eggs in ter months of storage

> The eggs that come out of storage arong were wrong before they were puin or perhaps an accident may have occurred in storage and an even temperature had not been maintained.

The popular notion that eggs are longer is an error. It is not done for the reason that the eggs would not keep, and it would not pay if they die In the public market ease are divided keep. Cold storage of eggs has been blamed in other wave for sine it did not commit. The lest stored eggs to he had in seasons of scarolty are those

COUNTRY HELD EGGS

A large part of the state eggs that find their was to the market are what is known to the trade as country held stock. They are beld on the farms or at the country stores where the facili-

eggs on the laim. Sometimes they are kept in a receptacle in a damp cellar with cablages onions and other prod uce. Sometimes they are kept behind the kitchen stove or other unsuitable places. It such circumstances the expare off flavor in two or three days and in two weeks they are stale

In the summer time hens steal there nerts away and they are not found until some or all the eggs are faults. These go to market in due season. These same room with all sorts of goods are still further injured. It is from such sources that a large part of the stale eggs come that are found in city markeis. The cold storage eggs are good by comparison

There is real need for some plan that will place the new laid eggs at once in the cool temperature that is necessary hens eat while running at large in the for their preservation. There also is summer injure the flavor while the need for a campaign of education that summer heat debilitates the hen and will reach the farmers and inform them how eggs should be cared for and the necessity of rushing them to the cooler surper Perhaps the butter and cheese factories, that are scattered over the Eggs are put into cold storage when, country could be made agencies for egg ever there is a surplus. The month of collection as well as milk collection. It April produces more eggs than any 'would at least have the merit of taking other month, hence April leads all fith, the cass away from the far, or everer mouths in storage. Scientific Methods Being Dem-

onstrated Throughout the Country

WASHINGTON, May 19.-Detailed studies of local road building systems in 100 counties are now being carried on by the department of agriculture bottles of Recipe an departments and local road authorities. The purpose of this study is to discover the points of excellence and defects in existing local methods of building and maintaining reads which will aid the state authorities to put local road management on a systematized basis. The cooperating state because a authorities have been asked to desig- the gray nate counties that present tybical and exceptional features as to topography. character of road materials, methods falling hair stops. of construction and maintenance, administrative organization, methods of haired. road financing, and traffic conditions, wanted around, so get busy with From these lists 100 countles will be se-Wyeth's Sage and Sulphur tonight and lected, and in these counties the diviyou'll be delighted with your. dark, handsome nair and your youthful apsion of road economics will make iniensive studies.

Present Methods Poor. This investigation is prompted by the fact that there is at present very little of county prisoners in road construcknowledge as to the most effective and economical methods my which a county can develop its roads. At present the methods of financing local road these systems with the view of deterimprovements vary from calling on mining what system or combination of

by the general land office that about 45,000 acres of oil lands in the Big. Horn basin have been withdrawn from entry and exploration. Several large concerns, including the

Standard Oil company, are operating on these lands. As a result of the withdrawal, the state geologist says, these companies will be unable to proceed unless an oil-land léasing law is passed. Their dilemma is similar to that in which the Midwest Oil company was placed in the Salt Creek field several SCHIE ERG.

The Midwest company went into the

Artercas Gearless Transmission "Funny transmission" -you say, "that can't be

Cartercar gearless transmission is different, at least.

It is simple, too, in fact its simplicity is the very

reason why you cament smash and rip it all up

with a slight a lajuda wirt.

HICK BROS. 327 E. PIKES PRAN AVE.

In a Carteroar, instead of a lot of cogs and bearings.

in the transmission, there is a whoel and a disk. These roll tegether smoothly-silently, and so con-

vey the power from the engine to the drive wheels. Ne jerke and jare, no resp of clutch and clash of

gentus just a glide and you are under motion.

Oh, it's great to own and drive a Cartercar.

PHONE 610.

It was useless season in the Weddel son meant to take tabloid food, they must have something which would fill as well ...

Learn Many Things.

In previous expeditions, including the one that he was in last time, they were ignorant of many things. Among other things they took foods which, though quite good in themselves, contained a large percentage of water, and water has an absolutely dead weight, because they had potential water on all hands They had a cooking arrangement which would turn snow from 25 degrees to 30 dbaress below zero into water in a very short time, and would only use 10 tute miles from the South pole. It pounds of petroleum in 11 days' cooks known that there was a landing ing for four men. There would also be a saving of weight on their sledges.

With regard to their dogs, they were getting from the Hudson Bay company 100 of their best dogs, including some post teams. With the dogs was coming an expert dog draw. They must recognize that they wanted a man with a gitat deal of experience to drive dogs. especially over a snowy plain, bacause that their emissionaries in Europe, exwhen a dog saw nothing ahead be lost interest but when there was a team g six men across the continent. On marching shead all the other dogs would follow. Therefore, they wanted d six was the least number that an expert dog driver who could handle

LADY DIANA MANNERS

LONDON, May 16 -Lady Diana Manners has for several years held the title of the hand, mest woman in England. Her figure is superb her features egular and her expression sprightly and charming

For this reason it is not surprising that the announcement of a swimming competition in aid of a charity with Lady Diana, Lady Constance Richardson, Miss Tree and Mrs. Raymond Asquith as the stars, caused more than the ordi-

The prospect of seeing Lady Diana at the Maryleborne baths in a skintight bathing contume drow a crowd of the discerning youth and age about equally represented But Mrs Raymond Asquith was the only one of the four to appear. It was explained today that the other three, being ardent Tories, refused to bathe in the same tub, however large, as the prime minister's

SWITZERLAND IS HAVING TROUBLE WITH MORMONS

With Strong Opposition, in European Countries.

GENEVA May 16 -- Switzerland 15 having trouble in nusting the Mormons, making Zurich their headquarters

By spending large sums and emploving clever lawvers, this American religious sect has obtained official mately 350 feet footing. Several Mormons were arprisonment. They appealed and won carried, and from which they can bein the highest court on a technical gin their flights point concerning polygams which the Mormons take good care never to

Since then Suitzerland has become a second Utah, for, owing to the heavy costa involved no canton will attack the Mormons again. When these latter were expelled by law from Germany three years ago, they quietly missionaries settled at Vevev on Lake Geneva in a beautiful villa which they had purchased Some of them are still residing there. A Geneva pastor. who after several vests of a crusade, obtained the restitution of a woman relative from Utah is one of the leaders of the expulsion movement

So powerful are the Mormons that it is a reasonable estimate to claim clusive of England, send across the Atlantic to Tiah between 800 and 900 alone amount to 100 to 120 scarty

hery morely in "to country,

IENGLAND TO HAVE SHIP TO LAND AEROPLANES

LONDON, May 16-By a round about manner through Berlin it was lear ted here today that the British nomirany will purchase a steamship for use as a landing place for aeropluses or a saro-seroblanes

This is the first vessel acquired by an, government for the purpose of assisting the ocean scouts and indicates the emphasis thich the admiralty is Macing on the air branch

The vessel is to be imught from an English northeast coast shipbuilding firm and its length will be approxi-

There will be flying decks" fore rested in 1910 and sentenced to im- and aft on which the seaplanes will be

> Black Handkerchiefs Are Craze in London

LONDON, May 15-Black handkercrossed the frontier. Twenty-one l'tah chiefs are now the craze of the fashionable set here. They are of the finest muslin or lawn and often spotted with a color or else brilliant-hued initials adorn one corner Most of the neu handkerchiefs appear more offi mental than useful and are commoned of the flimsy material even all in not being considered too films: Very exanisite, to go with the peinted ninon. gowns that are presently to be the rage, are the tin' flowered maratic in white, or the most delicate colors voung girle annually. The Swiss girls springed all over with violets or rosebuils. Others have borders of dogs. or cats, heart all round the inside of recognized in law in France, Germany, the hems, of Some women are having distrust of the other. The bad feeling enters social life and prevents characters the office of their nandkardilets.

NEWSPAPERARCHIVE®

The gown shown in Fig. 1 illustrative the use that the new boaded fabrics are put to perfection. The fourresur, or underskirt of this creation, is in geranium pink charmonar. Over this is arranged a long pleated tunic exquisitely embroidered in pearls and rhinestones. A dash of originality is given to the gown by the novel arrangement of the sash. This is, in a deep pansy shade of ninon interwoven with silver threads. It is caught up on the tuile corsage, or, rather, on the apology for a corsage, with several little silver rosce, and then is drawn to the back and tied in an immense

There is a whole world of cloquence in the deftly draped skirt shown in Fig. 2. The gown is in pale blue charmeuse trimmed with silver and pearl embroidery. The drapery in this model is drawn up obliquely from the lower part of the skirt towards the waist, so that although quantities of folds are thus arranged, there is not the slightest suggestion of bagginess. The back reveals unexpected pleats. The skirt is lifted up in a chaming manner and held with a huge pearl tassel and silver motif. Tulle of a shade naler than the gown is employed for the coragge, and the quaint fish-wife kilting on the skirt, and also for the ruche which borders the décolletage. A sash of supple silver cloth is draped around the figure and tied into a big low at the back. The novel head-dress is composed of two high tulic wings which stand out at a smart angle and are fastened with a handsome pearl ornament.

There is to be a "iem are trummed with garlands of shaded passion flowers are carelessive pleated peplum, the edge of which decided vogue for headed nets. Bond, nowers giving them a rarely festive strewn. As it is of a rather fragdeed laces of all kinds, crystal and pearl supearing most appropriate to the uniterial, the lining has been put in embroideries are combined in excellent spring and summer season now shirred instead of plain, thus minimiz grace,

are too graceful to be adequately de-scintillate with every movement of the every herre live with a deep girdle of headdress is as incomplete as a flowsage green infletas ending in a floppy or without foliage, I have designed

Japanese bow at the back-a daringly some conflure accessories to accentueffective color combination. The bod- ate the chie of certain gowns. When ice is a mere suggestion of the lace, the hair is abundant and worn high outlined and decorated with many after the prevailing mode there is nothatrands of rhinestones. One strand ing more modish than a wired circle of holds it in place over the shoulders, rhinestones with a single French while another encompasses the arm plume having very full flues, standing some three inches below the shoulder, upright on the left hand side. I have supporting a short puffed sleeve of the one striking model which would suit chiffon. Below the girdle, the lace, a dusky haired woman admirably in which is about eight inches deep, is a plume of vivid shade of Tango red, slightly shirred, and attached to it is a the stem of which is also outlined with loose tuck of the chiffon, narrow in the rhinestones. A youthful looking front, but broadening toward the rear. "Juliet" theatre or dancing cap is of Under this is again a full, unconfined very fine gold net sewn with seed rume of the lace, super-imposed over pearls in an irregular design. On the the chiffon, which is here scantily ap- side is a cabochon of gold from which plied, giving to the skirt the desirably hang strings of the pearls as far down pulled in appearance at the ankle. A as the shoulder. Another quaint de tea rose with a sprig or two of mi- sign is shaped much after the fashion gnonette graces the girdle.

very light is sewn with crystal and jet less it also admits, of a high colffure. sequins in conventional designs. The These crownless evening caps are, indrooping lines of the low-cut white net deed, quite the rage on the other side, hodice, which is embellished with and a model which should meet with crystals, are softly emphasized by the much favor with the blende or tawny under body of flesh colored satin and haired woman is of black net ornaan oddly shaped plastron with an mented with long, narrow crystal oblique slant downwards to the back beads in spider web pattern. A very takes the place of the usual sash or smart shape is quite low in the front girdle. The flowing sleeves are edged sud comes to a high peak in the back, with a thin line of crystal beading and where it is unbellished with a single the wide folded over draping of the black pempon from which are pendant upper part of the skirt accentuates the long streamers of narrow black velvet the waist. A few inches above the fually tied to the wrist in flictatious knees the skirt opens holdly over a little bows. Still another unusual head gathered inset of fine black Chau- decoration is to be seen in the eartilly lace, then sweeps in pure, grace- rings of large single pearls which are ful lines to the back, where it ends in joined across the back of the neck by a square train.

On a faint pink coral charmeuse i stretching from our to ear. have introduced a skirt drapery of almost invisible black net woven with gold threads. This springs out from less figure seems decidedly like a conthe hips and is caught above the knees tradiction of terms, and yet while nawith a garland of pink blush roses and ture, aided by the brassiere, takes care forget-me-nots from which hangs a deep of most of us above the waist well ruffle of Bohemian lace. On the lace enough to conform to the lines of symcorsage is a uniquely shaped girdle of metry, with age, slas, will come aveirduli blue velvet, which slants obliquely dupots, and the tendency of all fiesh from high up under the arm on the seems to be to foregather around and left side to a depth of only about two below the hips. Hence the thigh reinches on the right and ends in a mam- | ducing coeset of the present day. The moth bow in the back, fastened with a new corsets are scientifically condazzling rhinestone buckle. The line structed, and are, for the most part, of the girdle is followed by a trailing boneless and built of a closely knitted gariand of roses and forget-me-nots sim-| material, pliable yet at the same time ilar to that on the skirt, and rows of strong. brilliants outline the decolleté.

gorgeous shade of burnished gold bro

of a winged Dutch cap. It is made of A turquoise blue taffetas with a sil- iridescent sequins, and as it is crownatreme corsetless effect directly below ribbon which, oddly enough, are even-

Found Through an Ad.

Would it be worth a few cents to have your watch or your purse restored to you as once?

Cartainly—if some one should bring it, your gratitude would be so great you would gladly hand that person a token of your appraciation in the shape of a reward, wouldn't you? But there are many people who would not accept a reward they don't want pay for being honest

And strange to say, it is these people who often find the most valuable articles but don't know where to find the owner.

Not long ago a young man picked up a posketter's containing over \$12 (which was just the amount he needed to finish paying for his bicycle). But he kept that pockathook for 10 days and watched the want ads, every morning to locate the owner.

But the owner never said a word; so could you blame him for spanding the money for

You would hardly expect him to think the owner carry to have it returned if he wouldn't advertise.

When you lose your watch or your ring or your mult or anything worth losing insert a want ad. Remember that people are almost always bracet especially in small things. Try them.

AND JOBS

PSYCHOLOGY

Are you looking for a job as motorman? Prove your ability by paychology. Will you make a good chauffeur? Submit to a mental test and find out. Would you be a successful telephone operator? You will save the company's ime and your own by undergoing a white head. Return to Gazette for ward.

Description of the position of the position.

Description of the position of the position of the position.

Description of the position of the position of the position of the position.

Description of the position of the position of the position of the position of the position.

Description of the position of

coundation has just summed up a Trains to Magitou: number of psychological tests for positions actually put into practice in modern industry. Thus the American Telephone & Telegraph company engaged Probessor Munsterberg to introduce a test for determining which applicants were likely to prove good telephone overators. The girls were examined with reference to "memory, attention, No. general intelligence, space perception. rapidity of movement, accuracy of movement and association." The results showed that the girls who qualified in the tests were the most effiient in practical service, while those later and left the company's employ. Prof Munsterberg has also tested street car motormen by elaborate apparatus, with a view to selecting those least likely to be responsible for accidents. As a result of his experiments. he came to the aignificant conclusion. that the application of such a test on i motormen would result in the rejection | 806 of about 25 per cent of those now emplayed Mr S E Thompson used "reactiontime tests' in selecting girls for the

work of inspecting for flaws in the steel balls used in ball bearings final outcome was that 35 girls did the work formerly done by 120, the accuracy of the work was increased by 66 per cent the girls wages were doubled the working day decreased from 10% to 8% hours, and the profits of the factors increased.

from the fact that there are something like 10,000 separate kinds of gainful occupations in the United States Dr. Altes sees great possibilities in passingle at tests for cheening the COLORADO SPRINGS GAZETTE right persons for John He says.

ADMIRAS SIR CHRISTOPHER CRADOCK

MOUND HERO JEAN FROM left to right, Napoleon Lajoie, Ira Thomas, Wilbert Robinson. Wilbert Robinson. **DUBUC IS SMART** DIAMOND TOSSER

Jean Dubue of the Detroit Tigers should some day be referred to as the wealthiest man in baseball and the day is not so very far off.

They say Jean is a wise pitcher, and he is: has a good head and thinks fast and has that finer sense and all that sort of thing, but outside of baseball the brain that makes Jean one of the best pitchers in the business is making him one of the wealthiest capitalists in the good town of Montreal, where his real estate holdings are located.

A few years ago Montreal did not have a bowling alley. But the Canadians there liked bowling, which was showing on the lawns where they tried the game

Dubuc decided that if people thought enough of bowling to bowl on the green they would be willing to send the ball down regulation allevs if they got the opportunity. Jean had about \$2,000 rased up at I he secured a lease on a building in the downtown district. This site stood on one of the best streets and was an ideal location.

PAILURE WAS PROPHESIED. There was no such thing as sym-

pathy for Dubic in his venture. All the wise hoss of the city told Jean he would be broken inside of two The lease itself ran into thousands each year, and he would have a tough time meeting expenses each month. But Dubuc did some high financing and he opened his bowling alleys.

The Dubuc alleys proved successful from the start. They were engaged weeks ahead, and the pin night and often later. The allevs became so popular that Jean also opened a pool and billiard hall and a cigar store Success kept crowding into everything he started. His

three ventures proved "mints."
Today Montreal has more howiing dieys and pool and billiard parfors than any city of its size in this country, and also in Canada.

Dubuc was the first in the game. the pioneer of the thing, and his alleys and parlors still lead in the race for popularity. Those who aughed at him when he first proposed the ventures stayed to pav him royalty on the amusement privileges he offers

Enormous incomes from his business gave Dubue a chance to dabble in real estate. Last winter, he made one big transaction which has doubled his bank roll and this is rather fair work for any man in the real estate game.

At present. Dubuc is representative of the Carr Sporting Goods Manufacturing Company Carr has given Dubue the privilege of placing the company's baseball in various colleges, and Jean, who attended Notre Dame and has many close friends in a large number of echools over the country, is selling the balls rapidly in large numbers. He says his commission from base-

ball will not him about \$5,000 this

Although Dubue is known only for his work as a major league ball player, the money that his pitching brings him is less than that coming out of any of his side ventures. And at that Dubuc is con-sidered one of the stars close to the \$5,000 mark.

FALKE TALKS ABOUT THE WAY HE CAME BACK

The greatest comeback in the history of baseball has told how he accomplished the seeming impossible. Fred P. ("Cy") Falkenberg, who was sent from the Cleveland Naps to the Toledo-club of the American Association in 1911 as a baseball has-been, and who is now with the Indianapolis Federals, gives his recipe for recovering pitching ability for the benefit of others in the national pastime who seem to have reached the end of their usefulness in hig leagues

"Cy's recipe must be a good one, for it is the one he followed in coming back from the minors to fast

Three years ago, when the Cleveland management decided that my fast company days were over and sent me to their farming team in Toledo, it did look as though I would have to finish my career in hove worked from morning till mid- __the minor leagues. My friends sympathized with me, saying it was merely the route all baseball players have to travel, that the pace in the big leagues was a short and merry one at best. However, I felt that I was not a dead one and determined to work harder than I ever had before in my life to come

> 'After playing the few remaining games in Toledo in 1911 I went to work in the uphoistering department of the Willys-Overland company in the big plant in Toledo For eight hours a day all during that winter I operated what in known as a fulting machine, a contrivance for making back-sest cushions for motor cars. Day ly day I thumped and pounded the long curled hair of commerce into that machine, getting a great dealmore of good, solid exercise for my throwing arm than if I were pitching a game every day. Almost every night I howled, being a member of one of the seven teams in the league formed among the factory workers. I took the best possible care of myself and in the spring a

felt as fit as ever in my life. "I reaped the benefit of the work in the season of 1912, making an excellent record with Toledo. That

winter I went right back to the

Devotes All Time to Children Mrs. Tyrus Cobb is the mother of two charming children, rather than the wife of the world's great-

Mrs. Ty Cobb Shuns Limelight;

est baseball player. Mrs. Cobb dislikes the publicity and fanfare that always casts a glamor around her famous husband. She keeps as far as possible from the ilmelight that is constant-

ly seeking Tyrus She is a very patient little woman who has her time taken up completely with the two little Cobbs.

Tyrus, Jr. and Shirley
Tyrus is a bright, active little fellog with brick-red hair and large, bathful blue eves He has his father'srapirit of adventure, however,

autómobile factory and hair-stuffing, pounding away as hard as ever at the day s work and at the evening howling Early in the spring of 1913 I was chosen a member of the All-Overland bowling team, which took second money in the international tournament in Toledo This spring, having investigated my physical condition, the Cleveland management took me back with the Naps I met with success all during the season, and so far this

Falkenberg is hy no meany a youngster in baseball, having been in the major leagues for ten years He is not an iron man being of slight almost delhate build. Therefore of a necessity, more depends ; pon his brith power than his etrength for pitching success, though he must be in the pink of condition in order to stand the pace

Inlkenberg has never indulged in liquor. He keeps good hours, always getting plenty of sleep He is careful about the kind of food he eats. His one indulgence is in cigars big black fellows but these are tabooed during the playing season. He can very easily weaken himself by emoking, he

and he soon overcomes his timedity and takes chances at climbing clay banks and trees without icgard for the appearance of his clothes. He is a real boy.

Shirley is another blue-eyed tot with flaxen hair She is just 19 much of a little lady as Tyrus, Jr. is a little man

When the family is gathered around the table eating, Tyrus sits in a high-chair next to his mother. while Papa To takes care of Shinlev. The family naturally attract i great deal of attention

Mrs Cobb likes baseball and she sees all the gan to the can Her chief delight is to see Ty stealing

Napoleon Lajoie and Wilbert Robinson Delight in 'I'elling Friends BY BILLY MURPHY.

Tales Ira

Thomas,

A player of today who shows by

his actions that he has a deficiency in his think-tank, is commonly termed a "bone-hoad." Very few, if any, fans know where this term originated, but Wilbert Robinson, manager of the Brooklyn Dodgers, gives the credit to Edward Michael Ashenback,

Here's how "Robble" tells the story to his intimates: "Some year ago 'Ash' was manager of the Shreveport team of the Southern League and was playing a youngster by the name of

McClowan in the outfield. "One of the opposing players knocked a high fly in Mack's diacction. Somehow he lost his nerve and was unable to judge it correct-He made three or four circles and finally gave it up entirely, just as the ball came down on his head and bounded to the far corner of the field, two runners scoring.

"'Ash' was wild The game lost. "Picking up a citcher's mask and rushing out to the bewildered fielder be yelled.

"'Here, you bone-headed mutt,

'When he came up with the play-

er he began it again " 'Here, you bone-head.' he yelled, take this mask and put it on or they'll knock your brains out with the next fly they put over!" ROBINSON TALKS OF

FAMOUS "BONE" PLAYS. "Speaking of bone-heads, it might he well to speak of bone-head plays also" continued Robinson.

"Here is one that would undoubtedly carry of first honors if the knights of the solid ivory ever competed.

Warren Miller, a young outfielder of the Tri-State League, but later with dee Cantillon at Washington, was raught napping off first base one cay and of course the manager told him 'something' good and

The very next day Miller was caught napping off second base " What in the world were you doing out there on that base standing

as if you were in a trance?' Selled the manager, when Miller returned to the bruch 'What in blives were ven thinking of? he continued 'Well, I'll tell you just what I was thinking of,' replied Miller 'I

was thinking of that call down you give nie sesteratas.! Nanolron Lajole has a favorite that he tells concerning a youngster who also happened to play with the We hington club by the name of

Tee Cantillon surly and bluff was again the manager in the case ' ac ording to Mr Laioie.

A few data after McKAt reported " gave Imfole "there were a suple of men on the bases and it p, ened to be McKay's turn at the M Kay was a blt timid at acting

MEDIATORS TO GOV. AMMONS STUDY WHOLE MEXICAN CASE

Huerta Delegates Are Bent Blames Outside Influences for on Restoring Peace to Their Country

Best Interests of Republic to Union Will Protest With Be Represented at the Conference

for Niagara Palls, Canada, to attend the mediation conference on Wednesday, are confident of the success of their mission, which, it was learned, is the broad question of pacifying all of Mexico.

The three Mexican envoys have little idea how long the arrangement of a settlement will keep them at Niagara Falls, but they are confident their trip will not have been in vain.

The Mexican delegates are said to realize that the present administration in Mexico City is fast crumbling, and that the choice of some one to, succeed Huerta is inevitable.

What of the Future?

But conceding the retirement of Huerta, the delegates are said to be most interested in the vital question of what is to follow what guarantees are to be obtained against the possible

On the other hand, those close to essert that the question which is to mediated is no longer the failure of Huerta to salute, or the offenses. mmitted against the dignity of the refled States, but the broad question and work, regiet the lawler pacifying Mexico. Those who know the broad view-

point of the Washington governe. Ant lere the American troops will not a stable government is established or is in sight in Mexico City.

Represent Neither Faction. Persons close to the Mexican dele-

gates emphasized that the three men who will represent the Huerta government are not "Huertaistas," or the -controlled by the (ederals Though technically the delegates are

dealing with an international question the differences which arose with the Inited States out of the Tampico inrident-privately, they admit that before them is the problem of the actual pacification of Mexico.

Persons close to Emilo Rabasa, chairman of the Mexican, commission, and intimate adviser of Huerta, said the Huerta delegates would await the suggestions of the three mediators but when the time came for their answer to suggestions as to a sucressor for Huerta, they probably would insist that ino man who had gained military prominches or was obtaining power "by arbitrary force," as set forth in President Wilson's Latin-American declaration, should be permitted to take the reins of the government. This would, in effect, climinate Gen-

Trolley Talks, No. 10.

Supporting the Idlers

As one of the men down at our barns remarked the other day:

"Trolley cars are a good deal like human beings. Some of them work uncomplainingly all year around; others break down every once in a while and have to be patched up; and still others work steadily for a few months and then loaf for the rest of the year. The open cars

and the 'trailers' are the loafers." We are repeating this comment because it throws an interesting side light on a phase of the street car business which comparatively few people ever stop to think about.

For nine months each year we support an aggregation of twenty eight trolley "loafers" eighteen double truck open cars and ten "trailers." To maintain these idlers during their annual lay-off costs us about \$16,000. Yet it is an expense that we cannot avoid, for the twenty-six "uncomplaining" closed cars that we run all year 'round are not sufficient to carry the extra heavy traffic which the tourist season brings to us.

We need the "loafers," even though their maintenance during the Fall, Winter and Spring months eats a good sized hole in the revenue which they bring to us during the Summer

So that you may understand just how this maintenance mounts up we are going to quote some figures to you

In the first place, we had to have two extra sheds built to accommodate the open cars and trailers during their nine months' lay off. That cost \$50,000.

Add to that sum the cost of the cars-\$108,000 for the open ones and \$28,000 for the trailers-and we have an original investment of \$186,000 for equipment.

The interest on that sum, at five per cent, for the nine months during which the cars bring in no revenue, is \$6,975.

But that is not all.

Even though these Summer cars are used only three months each year, they have to be overhauled and put into shape each Spring just the same as our regular all year round cars. That expense last year, coupled with their main tenance while idle, aggregated about \$9,000 Add the interest on the original investment (\$6,975), and you will see that it cost as about \$15,975 to keep that idle equipment last year. Some years it has run over that sum, but a fair

average would be about \$16,000 per annum. The maintenance of idle cars for notes months each year is, however, not the only extra expense which the tourist season has saddled

A great number of the original improvements which Mr. Stratton made in this propert well as a number which have been under sit his death, would not have been recessary of our cars pulled a normal load all year round. We would not have been compatied to tailed as his a power plant, for instance, or to lave had so much double track on the Canon and Maniton lines if the Summer traffic here were not --heavy. But those same improvements, while an extra expense to the company, enable us to give you a better all year round service than you will find in any other city of this size in the country

The next time you visit another city, examine its street railway, compare its service with ours, and see if you do not agree with us

NEWSPAPERANCHIVE®.

One of the motoring problems wat us the in used of solution at the p. -- nt time is that of the glaplag IST, since it has been found to be headlight, according to automobile men. Farticularly well adapted as feat in As the arest of motor care her in this connection, is the statement conpressed so have the power and _fficiency of the lighting eyetrus tany/o/14 A light may be so strong that the whole read is illuminated for saveral hundred yards, every object being bathed in a flood of brilliant white light.

With such lamps it is often safe to drive at high stace, and awing to the a nince of continuous traffic in revity a good deal sefer then it would be in derlight. Yet this very essellings "x ve the chief drawback to the Yedery hise-

There are few situations alore para lysing to the traveler of any description than mesting a motor car with powerful headlights. All that is visible to him is a pair of eye-scorching white discs set in impanetrable darknees. Anything that muy be on either side of or behind those lights is absolutely invisible.

If the said be unusually wide; if the car keeps well to its own side, and if the lamps are set reasor-bly close together, he has some chance of for sessing calamity.

It is on the winding roads that the danger is greatest. Apart from the disconfort to human beings, there is the risk attendant upon meeting restive houses. The dassing bowls of a will ext 25 or 30 pounds pir day: the it installed a new equitary issizes 200 yards, may well upset the composure of the best-behaved ani. Fl. At 50 yaids, suddenly encountered round a hedged or walled corner, they are

only too likely to cause a catastrophe. If a low illuminating standard were set by law matters would by no means be improved. A strong light is sausstibl to safe driving. It is quite as important that the sides of the ruad for 50 or 100 yards ahead should be in clear view as that the eruter of the rand should be visible a quarter or half a mile ahead. The driver of the car should be able to see as well as If the electric lights were this dui-

vara i method of illuminating it might be passible, in time, to establish an unon the faster it grows."-1 Henry written rule of the road that upon sateting other travelers the headlights should be switched off until the masting vehicles had projed. Undertungteit of the lawns, parks and bouls- ly, it is seldow posible to turn inrds, daspite every effort to exter- acatyline gas lemps at will, and there must be quite as -ny of their sa the .oude as of the more convinient

ALI SOULS

The Rev Thomas Salter Robjent preached at All Souls church , ierday morning the third in the course of sermons which he is delivering on What Do Unitariana Believe" His subject was "The Salvation We Believe In" He said in part

We as Unitarians do not hold any longer a miraculous idea of the universe. We do not believe any longer in God as outside the nature of things and working upon it. We do not be-lieve in the fall of man, that myth which has spread from one account In Genesis to cover all the older sysions of theology. We do not believe that God made a mistake when he made man, which has necessitated man being in a kind of spiritual repair shop ever since. We do not believe in an atonement which has for its object the appearing of God, for a God who useds appearing has ceased to be God in any proper sense

We, however, believe that there are many things from which man needs needs to be saved from ignorance, and his only salvation is in finding the

Some york ago, in a New York department store, a gigratic painting was on exhibition entitled, "The Conquerers", At first sight it was an inspiring conveytor, a spendid procession of high-parameters. spiring convepton, a spiendid procession of high-styping horses, their ridge gelly apply sial, banners fighave dangeded to grat levels, and ing, and all, in the strong sunlight have dangeded to grat levels, and his thoughts hardened into flish, all the priestly absolutions that may be the priestly absolutions that may be pronounced or deathbed repentance which may be prof "sed, will not open the gates of Heaven to his soul; for no man ever entered a Heaven which had not first entered into him.

Third, the salvation we believe in is a salvation from self hasy Solfishnem is the curse of the centuries, and it is pathetic to think in what measure it has crept into religion. Anen I was a boy, I used to be greatly worried by the anxious thought, put into my childish mind by the preachers of those days as to whether I was saved or not; whether my own personal soul was in danger of perdition. That thought runs through much of the that no man can be saved alone, pity the man who wants to have little private Heaven of his own, and who would stoop to be happy in any Heaven so long as there was one lone, far off wall of a lost soul.

Fourth, we believe in a salvation with hope, hope for everylody, hope etrual. We stand builds Browning. One of the most wonderful of his poonis was written in the moreue in Paris. Standing there amid the bodies of suicides, victims of murder- and the unknown and unrecognized: thous poor weeks of humanity that have mistaken the way, and have flown like moths into candle flames, he sings in ringing accents, that there is hope even for them, for they are God's children, as we are. In another positi

of our poets pictures a man just to understand our language, we also then from cooperating and that speaks of agony and danger, is sking disturbance.

A decade may pass, but the troubles A decade may pass, but the troubles will bry but afresh, as they have done biffere after a similar interval. The better day cannot come so long as the chief owners of mining properties do not for 10 years visit the state, and the chief owners who belief the state of the state o do not meet the men who believe thes today. But if so, then Christianity is far behind the other religious of the world in pure human pity. The nixdonna of China is a woman who # id, "I will never receive private salvation."

of salvation

What the Prim Agents Say

"INT FOREST VARIATE"

Pierre Duval, leader of "The Forest Vampires" a band of robbers, holds up and robs a lady and two gentlemen of high rank. Duval is the landlord of the Tavern du Leon. A defective, Armand Pauvre, disguissed as a musician, goes to the inn to watch the landlord who is suspected of his secret connection with the bandits. Marie, Duvals dauhter, falls in love with Armand, who determines to use her as a means of discovering the robbers' secrets. He writes a letter to this effect to the government authorities. The letter falls into Duval's hands, who summons his band and has the detective captured and imprisoned in a cave in the forest

Marie frantic for the safety of her lover, rushes to the magistrate and tells him what has happened. When she leads him and his detachment to the cave there to her reat astonishment. she finds her father. She confesses to him her love for Armand, and that it is alle who has brought the moldiers in which Armand has appounced his intention of using her as the tool of life detective mission. Scarcely has she read it when Armand himself comes out of the cave. She turns and shoots him. Then he learns that Marie has eaved him from the hands of the Vampires and pleads with her to come to him. But thouh he lies wounded by her own hand she has nothing for him

DEATH HAND OF SEGUNDO' FALLS UPON A STRIKER

TA CECHUOW KAULS turul History and Society

Complete Reorginiestion of Tent Colony Planned by the Regulers

TRINIDAD, May 18 -The "death hand of Traundo," in the opinion of army officers, was responsible for the wounding today of Juan Cruz, a Mexican striker, in the first shooting since the military occupation of the strike district. The affair occurred near Segundo. Cruz was shot through the arm with a small caliber bullet. The would was dressed by the United Mine Workers' physician, who said the condition of the injured man was not serious.

Crus appeared at military headquarters late in the day and made complaint that some one had tried to as-The president gave the Arperic a la inste him because ne seconductioners, Justice La of the the union. He was in the act of taking a drink of water, he declared,

Dafied Blackhandare

Questioning by the officers brought out the fact that last December Crus received a blackhand letter. The letter, written in Spunish, was signed "The Death Mand of Segundo." The writer warned Cras to leave the state. "I am going away," he wroth, "but I shall return. If I find you here, I ₩UI get you."

A plan to regardenies the local branches of the United Mine Workers of Americal with a view to eccuring bettil control over the men and page vention disorder, was talked over to shift between some of the army offi-

locking Tradity for email acoust. zer p kuneat distribution of the X, to the camps where they are held to belong will begin in the next for days. In the Aguilar distillet there are 148 strikers who are conaldered to belong to Ludiow. They will be moved to the Ludlow colony, it was announced, as soon as tents AT NIAGARA FALLS it was announced, as soon as tents are provided for them. In similar manner, an effort will be made to cloudburst early Sunday evening at place every striker in the district (Gratinund on Pass Thrain)

Sunta Fe Train Is Held Up In City of Chicago;

CHICAGO, May 18 .- Robbers boarded the Atchison, Topeka & Santa Fe passenger train which left here for California tonight, held up the passengers of the observation platform and were driven off the car by the train crew. according to reports to the police here tonight,

Four men mounted the observation car when the train stopped at a grade crossing near the western city limits. They pointed revolvers at the three passengers on the platform and demanded their money. The trainmen came through the car as the engine started and the thieves dropped from the platform. They are said to have day. obtained \$9 in cash only.

Funday's Cloudburst Caused Creet Demage to Rords of County

Buttes, 29 miles south of this city than estimated after the first-hasty inspection, resulting in the annulment of all southbound trains for an indefinite period. Torly this (Tuesday) morning Santa Fe officials here were expecting to receive word at any moment that the line was cleared. Denver & Ric Robbers Make Escape Grande officials state their tracks cannot be replaced before noon today.

The Rio Grande suffered the heavier damage. Four miles of track between Buttes and Pinon were washed away. as were several small culverts and about 150 feet of the long approach to the big Buttes bridge. All the track age between Fifteenth and Twenty second streets in Pueblo also was car ried away. Temporary tracks are being laid through Mineral Palace park in Pueblo. On the Santa Fe about 2,000 feet of track was washed out and a small bridge was carried away.

The Rio Grande will detour its south bound trains by way of the Santa Fe as soon as the latter road is opened. Trains on both roads were operated between this city and Denver yester-

\$5,000 Damage to Roads. County commissioners state that

\$5,000 is an exceedingly conservative estimate of the damage to the county which was the large wooden structure shambles. Than Average Adult over the Fountain at Buttes. Rebel Leader Explains Why Forced Loans Are Permitted to Be Made

EL PASO, Tex. May 18.-In alleged by representatives of the offcompany, was being held as a hostage for payment of a forced lean of 10,000 pesos, Roberto V. Pesqueira, confidential agent of the Constitutionalist government, drew a parallel between the action taken by General Benjamin F. Butler after taking New Orleans. and the loans levied by the Constituionatists.

Mr. Pesquetra deployed the action of the oil company men in appealing to the Italian ambassador at Washington as hasty and unnecessary, declaring that Teza had not been denied protection or put in jail, but had simply been requested by the military authorities not to leave the city until the 10,000 pesos, imposed as a neceseary loan from the Eagle Oil company, nad been paid.

enid Mr. Pasqueira, "are considered to Capt. Andrew Alexander of the South be Mexican even though the stock- liner Dunstan, which arrived tonight holders of owners are foreigners and from Brazil. although the capital of the organizations is of foreign origin. It is time for the foreigners, who are stockholders in such companies or interested | in them, to know that their own nationality or the origin of the capital exander said the fever from which the of the companies in no way affects colonel had have suffering had disapthe nationality of the companies. For preved, the wound on his leg, due to an that reason they are made subject to the governing laws of the country and have not the right to appeal to foreign governments in any manner.

Former "Press Agent" Turns Ageinst Him; Defense Will Open Today

NEW YORK, May 18 -Swearing that Charles Becker asked him to kill Jack Rose both before Rosenthal's murder with having taken part in the crime, C B Plitt, Jr., the former police Heutenant's friend, companion and press agent, completed the case for the

state ngainst Becker todu; James Marshall a negro, also took the stand to swear that he saw Becker and Rose talking at the Harlem conference which was declared by the ourt of appeals to have been the 'heart of the conspiracy to murder Herman Rosenthal'

The slain gambler wildow was mong the others who testified before District Attorney Whitman declared his case was complete

Tells Damaging Story.

Pilit said that Becker had asked him while on board a train on the way from New York to the death house at Sing Sing to make away with Rose After Rosenthal had been slain, Plitt said, he had met Becker who was in ered in the mountains near Monson, dignant at the way the killing had been accomplished

> Pitt stuck to his stors about being asked by Becker to kill "Bald Jack" Rose, the informer, while Becker was being taken from New York to Sing Sing He said the interview took place

Lied Before, He Says. Plitt admitted on redirect examina-

tion by District Attorney Whitman that he had lied when he told the grand jury that indicted Becker that Becker was innocent and that he believed he had been "framed up" Mr. Whitman Plitt appeared to be even more

nervous during his cross-examination than at any time he was on the stand In the middle of the cross-szamination, Becker moved to the far end of rest of the afternoon and was apparently eager to catch the eye of his one-time friend and companion

was, however unsuccessful, The defense will open its case tomorrow morning Mrs Becker will go on the stand.

Had to Have Alibi.

On July 15, the day before the murder. Plist said he saw Backer at po-

"Becker told me." said the wirness that he and I had to have an alibi for "What's coming off? I awked.

" 'Never mind,' said Becker. 'Do as alibi. Tomorrow you'll know why,' "

Plitt showed signs of nervousness during his testimony. The witness said he called on Deputy Police Commiswas a troublesome problem in the old sloner Dougherty, and did the best he could to establish an alibi for Becket. He saw Becker later and Becker vent him to a a Rose, then under air 🎉 "He sent in a note to Rose with the value to the employment of counsel.

Returning to Becker, said the wit ness, he reported that Rose had agreed to allow Becker to select his lawyer. Becker then dispatched Plitt, the witness awore, to Rose's house on Long

Feared They Would "Squeal." The next day, Sunday, Plitt asserted

"I wonder if that bunch will aqueal

"Then Becker told me to see Rose, said Plitt, "and advise him he was doing everything he could for him and for him to say nothing" The next time Piltt saw Becker was

Becker said, according to Plitt, "Didn't I tell you they would squeat" I want you to go out and get everything you can on Jack Rose. Get hold of the men in my aquad and have them testify I had no conversation with Mrs. Rosenthal on the night of the raid " Plitt said he saw Becker many times

In the Tombs after that He visited his arrest until Becker went to the Although the president had advised death house at Sing Sing. Once he told

> Well, Becker said according to the 'Tell them I have not got it

Trolley Talks, No. 11

Concerning Double Fares

A well-meaning but rather short-sighted friend dropped into our offices recently and asked us if we really intended to discuss the double fare problem in these trolley talks.

Upon being assured that such was our in tention, he shook his head mournfully and told us that we'd never "get away with it."

"It's all very well to tell the public what good service you're giving them, and all of that," said he, "but just as sure as you try to explain why you need that other nickel on the Canon and Maniton lines, you're going to get into trouble. You'd better dodge it."

We thanked our friend for the kindly motive that prompted his advice but added that we had no intention of dodging an explanation of any phase of our business in which we felt the public would be interested.

"We're trying to build up a structure of

Good Public Relations," we said, "and that takes a foundation of Honesty, a superstructure of Service, and solid, substantial walls of Frankness. It may take some time to build that structure, but we've got all the materials on hand and we're going to put them together just as speedily as good workmanship will permit. Watch us!"

Our friend still pessimistic shrugged his shoulders, but when he left a little later, he admitted that perhaps after all, we might be right.

"Only you've got to show me!" he said, by way of farewell.

We are going to show him.

Beginning tomorrow we shall present to you in this space every scrap of information that we have been able to dig up concerning "double fares."

We're going to show you every extra fare that we collected last year on the Canon and Manitou lines, tell you what percentage of our gross receipts they represent, and what porfrom of our expenses they paid.

Then we're going to take up the argument that "lower fares will induce so much more travel as to more than offset the losses due to lower rates," and give you the street ear man's

We will also present you with some data on lower fare experiments that have been tried out in other cities

To avoid the accusation of presenting only one side of the double take problem, however, we are going to myite right now each and effect citizen of Colorado Springs who has given some thought to the question of double fares to send us then views

We shall ask only one favor of you-please try to keep your communications within 250 words, as we want to publish some of them in this space.
